TWO CENTS

ON JEFFERSON'S PLAN

Govern Philippines Like He Did Louisiana.

THE COMMISSION SO RECOMMENDS.

Declared Their Proposed System Even More Liberal—Aguinaldo's Scheme of a Protectorate Asserted to Be Chimerical—Recommend Retaining Islands.

WASHINGTON, Feb. 3.—The president transmitted to congress the first volume of the report of the Philippine commission. It is a volume of 264 pages, including the appendix, and is signed by Prof. Schurmann, Admiral Dewey, Colonel Denby and Prof. Worcester. The principal subject dealt with is the plan of government proposed by the commission, which includes a discussion of the Spanish government existing prior to the war, the various reforms desired by the Filipinos and the constitutions proposed by them, together with the conclusions and plans suggested by the commission. The report also covers many other matters connected with the social administration of the islands, racial characteristics, education, secular and religious orders, the Chinese in the islands, public health, currency, etc., as well as the condition and needs of the United States in the Philippines from a naval and maritime standpoint. The second volume of the report, which will not be ready for several weeks, will contain a detailed study of the climate and natural resources of the island. The chief interest in the report naturally centers in the plan of government proposed by the commission.

The commission announces itself unequivocally in favor of a government of the Philippines and analogous to that of a territory of the United States, with a governor appointed by the president. They say it is desirable that the inhabitants of the archipelago should enjoy a large measure of home rule in local affairs, their towns to enjoy substantially all the rights and privileges of towns in a territory. The provinces should be vested with substantially all the functions of a county in a territory; this system might be applied to Luzon and the Visayan islands at once and a beginning might be made on the coast of Mindanao. The entire archipelago, calling for special arrangements with the sultan, the commission says need not be considered in this connection.

The Filipinos could manage their own town and county affairs through their own officers, whom they could elect with no help from American officials, except such as would be involved in control from the central government at Manila. The suffrage should be restricted by educational or property qualifications, or both. This system would necessitate a small body of American officials of great ability and integrity and of patience and tact in dealing with other races, and on this account the commission recommends that they should be paid high salaries. The commission says they could be called advisers or commissioners and that one for every 25,000 natives should suffice. It would be the duty of such commissioners to report upon their work to the central government at Manila. Their main function would be to advise town and county councils in the discharge of their duties and to watch the collection of revenue and its expenditures.

The kind of a protectorate which the insurgent leaders desired, the commission says, is one in which the United States would assume all responsibility for protecting the Philippine government against foreign aggression, while their own officials would collect revenues. The report further says in part:

"Under the chimerical scheme of protection cherished by Aguinaldo if a foreigner lost his life or property through a miscarriage of justice in a Philippine court, or in consequence of a governor's failure to suppress a riot, then the United States would be responsible for indemnity to the foreigner's government without possessing the power of punishing the offenders or of preventing maladministration or of protecting itself against similar occurrences in the future. Nor could the inability to foreign nations be reduced without permitting them directly to seek redress, and such a course would, it is to be feared, speedily lead to the appropriation of the Philippine islands by the great powers, who would not seek far for pretenses for intervention."

"There is no analogy," says the commission, "between the relation of the self-governing colony of Australia or of Canada to Great Britain and that of the Philippine islands to the United States. Instead of community of blood, races and languages there is the greatest diversity; and, instead of a common political experience, the one has already breathed the air of freedom, the other has been repressed by despotism. Clearly the plan of a self-governing colony is a misfit to the Philippines."

The commission then discusses the other two types of British colony—crown colonies and colonies having representative institutions. But no responsible government, typified by British Guiana and Hongkong respectively, but neither style of government the commission points out, after lengthy argument, should be applied to the Philippines.

The commission takes as a basis for the government proposed the territorial organization of Louisiana. The act is set forth in full. It pro-

vides for a governor and secretary of the territory, and vests the legislative power in a council appointed annually by the president. Courts are also provided for. "This scheme of government," says the commission, "possesses besides its intrinsic merits, the historical interest attaching to it in connection with the author of the Declaration of Independence. Jefferson had outlined a first sketch as early as 1803. He seems to have felt no incongruity between the principles of the Declaration of Independence and the scheme of government for the politically inexperienced inhabitants of Louisiana. In deed, he complains with some bitterness, in December, 1803, when differences of opinion developed as to the manner of disposing of Louisiana, that 'although it is acknowledged that our new fellow citizens are as yet incapable of self-government as children, yet some cannot bring themselves to suspend its principles for a single moment.'"

From the outset, however, the commission believes it safe and desirable to extend to the Filipinos larger liberties of self government than Jefferson approved of for the inhabitants of Louisiana, assuming that in the main archipelago and such portions of the other islands as are occupied by tribes of Indians the government will be conducted through the agency of their sultans or chiefs. The commission believes that the people of the islands should be permitted to elect at least members of the lower branch of the territorial legislature, and that at least half the members of the upper house should be appointed by the president. With such safeguards in American hands and a qualified veto power for the governor general (including the right to suspend the law for a year even after its passage by a vote of two-thirds of the legislature over his veto), this plan of government, which is on the lines of the constitution prepared for the commission by those Filipinos who sought to adjust the claims of the insurgent leaders to the rights of American sovereignty, would probably be adequate for the purposes of good government. This is especially true, the commission says, since congress may and should retain the right to veto territorial legislation. Nearly all the officers will, under this form of government, be filled by Filipinos themselves.

The commission suggests that a civil service board, to ascertain by competitive examination of a practical character the qualifications of Filipinos seeking office, should be instituted, and there should be promotions for merit and tenure during efficiency and good behavior. The small number of American officials needed would include in the first group governor, secretary, attorney general, certain judges and other officials of the territorial government and in the second group heads of postal, customs and other departments. The officers of the first group should be appointed by the president and of the second transferred from the home service. In neither case should there be examination.

The commission, while not underrating the difficulty of governing the Philippines, is disposed to believe the task easier than is generally supposed. The Filipinos, they say, are of naturally promising material, possessing admirable personal virtues and being naturally docile and deferential to constituted authority. Those that are educated will be of a little value to the United States in the work of establishing and maintaining civil government throughout the archipelago.

The commission concludes:

First—The United States cannot withdraw from the Philippines. We are there and duty binds us to remain.

Second—The Filipinos are wholly unprepared for independence and, if independence were given to them, they could not maintain it.

Under the third head is included a copy of Admiral Dewey's letter to Senator Lodge, which was read in the senate the other day denying Aguinaldo's claim that he was promised independence.

Fourth—There being no Philippine nation, but only a collection of different peoples, there is no general public opinion in the archipelago, but the mass of property and education who alone interest themselves in public affairs, in general recognize as indispensable American authority.

Fifth—Congress should, at the earliest practicable time, provide for the Philippines the form of government herein recommended or another equally liberal and beneficial.

Sixth—Pending any action on the part of congress, the commission recommends that the president put in operation this scheme of civil government in such parts of the archipelago as are at peace.

Seventh—So far as the finances of the Philippines permit, public education should be promptly established, and when established made free to all.

Eighth—The greatest care should be taken in the selection of officials for administration. They should be men of the highest character and fitness, and partisan politics should be entirely separated from the government of the Philippines.

UNITED STATES BROAD.

Majority of a House Sub-Committee Reported It Covered the New Lands Acquired.

WASHINGTON, Feb. 3.—At a special meeting of the house ways and means committee reports were received from the sub-committee, which has considered to what extent the term "United States," as used in the constitution, relates to the outlying territory recently acquired by this country.

A majority of the sub-committee, comprising the Republican members, reported in substance that congress had practically unlimited power in dealing with these territories. The minority,

comprising Mr. Richardson (Dem.) and Mr. Newlands (S.R.), took a different view.

SHUT OFF PETTIGREW'S SPEECH.

Point of Order Did It In Senate—Allen Arraigned Gage.

WASHINGTON, Feb. 3.—An effort by Senator Pettigrew, of South Dakota, to discuss the Philippine question in the senate was of no avail, as he was met by a point of order which took him from the floor. He had gotten only so far as to charge that the great journals of the country would not publish the facts concerning the Philippine war. Subsequently he offered another resolution, on which he will speak next week.

Senator Allen, of Nebraska, concluded his speech in arraignment of Secretary Gage, because of his transactions with the National City bank of New York. He had previously introduced a resolution providing for an investigation by the senate of the treasury department, but objection to its consideration sent it over until next week.

FORWARDED MONEY TO BOERS.

Secretary Hay Sent Contributions Collected by a St. Louis Paper.

WASHINGTON, Feb. 3.—Secretary Hay received the sum of \$750, collected by the St. Louis Westliche Post and transmitted to the department of state by Mr. Pretorius, to be used for the benefit of the widows and orphans of Boer soldiers.

The secretary forwarded the money by the mails to Adelbert Hay, United States consul at Pretoria, to be turned over to President Kruger for the purpose specified. Mr. Pretorius' letter was also sent forward. The action of the state department, it was explained, applied only to contributions for charitable objects.

Indian Appropriation Bill Considered.

WASHINGTON, Feb. 3.—The house devoted its attention to the Indian appropriation bill. It got no further, however, than the appropriations for Indian schools, where an effort was inaugurated by Fitzgerald, of New York, to permit the secretary of the interior to contract with schools for the education of Indian children where the government lacks facilities. No appropriation is made for contract schools in the bill. It is claimed the present Indian school facilities are inadequate.

TO FIGHT GENERAL BULLER.

Lady Smith Reported Resolute Moving Toward Tugela—Methuen's Camp Probably Base For Invasion.

LONDON, Feb. 3.—1:10 a. m.—Heliograms flashed from Ladysmith three days ago say that the Boer investment lines then were thinning and that the best of the Boers were moving in force toward the Tugela, indicating that a collision was expected there. This intelligence bears out other signs that General Buller purposed a fresh attack.

Lord Kitchener has been traveling from army to army in Northern Cape Colony, and General French, by instructions, is now in Cape Town consulting with Lord Roberts. Large engineering constructions are proceeding at Modder River, suggesting that Lord Methuen's fortified camp has been selected as the base from which to invade the Free State.

"General Buller's retreat," says the Cape Town correspondent of The Standard, "has resulted in a recrudescence of treasonable talk here."

It is learned that the war office intends to increase the regular army by 15 battalions of infantry, adding these to the existing regiments.

Seven Los. In Six weeks.

WASHINGTON, Feb. 3.—The following telegram was received by Assistant Secretary Hall from United States Consul Grinnat Brownsville, Tex.: "Schooner Adams, from Galveston for Brazos and Santiago, wrecked on the Mexican coast. Seven lives lost."

Hague Treaty Likely to Be Ratified.

WASHINGTON, Feb. 3.—The senate, in executive session, took up The Hague peace treaty. There was a brief discussion of it, but no opposition was developed. The treaty would have been ratified, but under the rule it had to lay over 24 hours after being read.

Condition of Phelps.

NEW HAVEN, Feb. 3.—There was no change in the condition of the Hon. Edward J. Phelps, ex-minister to England, who is ill with pneumonia here.

COAL SCALE SIGNED

Satisfactory to All Except Illinois People.

AN ADVANCE OF 21.21 PER CENT.

This Is What the Agreement In General Provides—Dolan Called a Meeting of No. 5 District Delegates For Feb. 13, In Pittsburg.

INDIANAPOLIS, Feb. 3.—After a joint conference, lasting nearly two weeks, the delegates from the United Mine Workers of America and the Interstate Operators' association finally adopted a scale, which is a compromise between the first demand of the former and the first offer of the latter.

The scale provides for a general advance of 21.21 per cent, and is satisfactory to operators and miners of Ohio, Pennsylvania and Indiana, but not of Illinois. Patrick Dolan, president of District No. 5, of the United Mine Workers, has called a meeting of the district delegates, to meet in Pittsburg Feb. 13.

A motion was carried to meet at Columbus, on the second Tuesday in February, 1901.

GOV. GOEBEL

SOME BETTER

FRANKFORT, Feb. 3.—Early this morning Governor Goebel was resting comfortably. His kidneys were said to be performing their functions better, obviating in a degree the danger of uraemic poisoning. Dr. Williams said he breathed entirely from his left lung; the right lung was clotted with blood, which prevented further bleeding, but later will prove somewhat a source of danger. The clotted blood will decompose in about eight days, and then it may be necessary to remove a section of a rib in order to remove the decomposed blood. The wound will then be drained and the danger then will be from secondary hemorrhage. His iron will and splendid constitution were said to be the main features in keeping him alive.

THE LAWTON FUNERAL

It Will Be Held In a Presbyterian Church, In Washington, Friday.

Interment at Arlington.

WASHINGTON, Feb. 3.—After telegraphic correspondence with Mrs. Lawton, it was finally arranged that the funeral services over the remains of the late Major General Henry W. Lawton, U. S. V., shall be held in the Church of the Covenant (Presbyterian) in this city next Friday afternoon at 2 o'clock, and that the interment shall be in the national cemetery at Arlington. The religious services will be conducted by Rev. H. M. W. Stryker, president of Hamilton college, Clinton, N. Y., assisted by Rev. Dr. Hamlin, pastor of the Church of the Covenant, and other clergymen.

General Lawton and his family were members of the New York Avenue Presbyterian church, and the funeral services would have been held there but for the fact that its location was not regarded as suitable for the proper movement of the large number of troops that will participate in the ceremonies.

A telegram has been received from General Sniffer saying that the funeral party will reach here Thursday afternoon.

The total of the Lawton fund Friday was \$97,002.

SUBURBAN NEWS.

ERECTING BOILERS

AT THE MILL IS VERY SLOW WORK.

Twenty-Five Cars of Cinders Used Daily in Ballasting Cumberland Extension.

Everything possible is being done by officers of the Chester Rolling Mill to have the boilers placed in position within the next three weeks. This work is very tedious and as the boilers are unusually heavy, placing them in position is necessarily slow. Some small machinery has been put in position but the hardest work is yet to come.

Tomorrow's Church Services.

C. S. Manor, of Liverpool, will conduct services at the Chester United Presbyterian church tomorrow afternoon at 3:30 o'clock.

The services tomorrow afternoon at the Methodist Episcopal chapel in the school house will be conducted by Rev. Clark Crawford, of the First Methodist Episcopal church of Liverpool. The attendance of all Methodists is earnestly requested.

No Compromising.

Gov. Atkinson has addressed letters to all the prosecuting attorneys of the state informing them that all fines imposed by the courts must be collected; that the practice of comprising on the number of indictments is a direct violation of the statutory law.

Cutting More Ice.

Yesterday afternoon W. H. Riley, J. W. and Harry Finley commenced to cut some ice in the river below the bridge. During the last cold snap these men succeeded in storing over 200 tons of ice, and as much, if not more, will be cut and stored this time.

Three Converts.

At the revival services at the Chester Free Methodist church last evening there were three converts. Since the meetings started, the interest has been steadily increasing, and they may be continued throughout next week.

Removed the Pump.

The portable steam pump stationed on the river bank above the bridge for several months and used by Contractor McNalley to pump water from the river to the tank on the county road, has been removed and sent to Uniontown.

Twenty-five Cars a Day.

The cinders that are being used in ballasting the extension of the Cumberland branch are being brought from the Dennison roundhouse. About 25 cars of cinders are being brought from the shops daily.

Literary Entertainment.

Next Wednesday evening the Junior Mechanics of Chester will give an entertainment in their rooms over the post office. A lengthy musical and literary program has been arranged.

Personal.

Mrs. Ada Marshall, of Fairview, is visiting in East Liverpool.

Miss Nannie Pugh visited her sister, Mrs. Harry Stewart, of Chester, during the week.

SPLENDID P. O. SHOWING.

Receipts For January Exceeded Those of December by Over \$100.

The January receipts at the postoffice amounted to \$2,567.43, against \$2,459.31 for December, a gain of \$108.12. The January receipts were made up as follows: Stamped envelopes and wrappers, \$674.65; stamps, etc., \$1,677.49; postal cards, \$215.29.

A NEW SIDING.

SURVEYED AT SEWER PIPE WORKS YESTERDAY.

Fuel Very Scarce—Democrats to Meet—All the News of East End.

Yesterday afternoon three C. & P. surveyors laid out the route for a new long siding to be built at the sewer pipe works. The construction of the switch will not be commenced for several weeks. It has been located at the extreme western end of the stockyard, parallel with Virginia avenue. The pipe that has been stacked on the avenue for over a year will be removed.

Saw Mill Arrives.

The sawmill at Midway, Pa., purchased last week from C. A. Smith by McCain Brothers, arrived at the lower freight yard yesterday, and today was hauled to the McCain mill near the power house. It will be erected at once, but will not be put in operation until spring.

Among the Sick.

Mr and Mrs. Darling are very ill at their home on First avenue with severe colds.

Mrs. Charles Gallagher, of Mulberry street, is under the care of a physician. A small child of Mr. and Mrs. William Campbell, of Pennsylvania avenue, Helena, is quite ill.

Fuel Very Scarce.

With a scarcity of coal and a shortage of gas East End people are having a decidedly uncomfortable time just now. Neighbors are borrowing coal from one another, as the dealers are out. Much coal has been ordered, but none has been delivered to the suburb.

Entertained the Class.

The members of the Bible class of the Second U. P. church were entertained at the home of T. J. Andrews, Jr., last evening.

Democrats Will Meet.

The East End Democrats are billed to hold a mass meeting next week, with the hope of finding a victim to run for council on that ticket.

Senior Mechanics.

At their meeting last evening the Senior Mechanics conferred the first degree upon one candidate and the second degree upon two others.

Sounded All Day.

Something was wrong with the signal bell at the railroad crossing yesterday as it was ringing all afternoon.

Personal.

Miss Jennie Huff, of Canal Dover, is a guest at the home of Mr. and Mrs. John Bell, in the orchard.

WINE OF CARDUI

Woman Knows Woman.

ZURICH, KAN., Jan. 31.
I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.

MRS. V. M. BOISVERT.

WINE OF CARDUI

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Boisvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it? Is it any wonder that thousands of other women recommend it? They know. They have actual experience to prompt them. They spread the tidings from mouth to mouth, telling how Wine of Cardui helps young girls, helps the weak of all ages, helps and cures all womanly ills.

TRIPLE PRICE IS PAID FOR TELEPHONES

High Rate Follows the
Consolidation In
Detroit.

Effect of the Purchase of
Independent Lines In
That City.

Bettering of the Service
Given as Excuse For
Exorbitant Rates.

DETROIT, Jan. 31.—The Detroit Journal of Friday, Jan. 26, says editorially: "When the practical consolidation of the telephone companies was effected the management made public the announcement that the rates would not be advanced as a consequence; but on the contrary, that the rates would remain undisturbed while the service would be greatly improved. As proof of the sincerity of the announcement flaming advertisements were published once in all the daily papers, offering to close twenty-five year contract at prevailing rates.

"Within a fortnight of the consummation of the deal, and with the advertisement still fresh in mind, the Michigan Bell Co. is making a systematic and strenuous canvass of the local field for the purpose of persuading subscribers to the prevailing service to apply for a better service at the rate of \$72 a year, exactly three times the rate named for the service now given. In explanation of this crusade for the higher priced service the officers of the company submit that they are about to install a 'new switchboard' and that the higher priced service will be directly connected with the 'long distance system,' thereby securing to patrons greater convenience.

"It cannot be that this is the first step taken to provide a better service, for both President Flowers and President Gidden are on record against any increase of price for bettering the service, yet there is something about it suggest five of the way of the heathen Chinese, whose ways are dark and tricks vain. The inducement held out that the new 'phone will be connected with the long distance service is not enticing to the average subscriber, for the average subscriber has use for a long distance service only once a year, if so frequently, and business subscribers on the metallic circuit are already served satisfactorily. It is represented, however, that the new 'phone will be much superior to the old, although the old 'phone will be maintained, but its connection with the 'new switchboard' will be incomplete and the service will not be at the best.

"One cannot, in view of all the circumstances, see in this new enterprise anything less than a subterfuge under which the monopoly, having got control of the field, purposes to treble the price of telephone service. It will do this, doubtless, by persuading business firms and rich individual subscribers to take the superior service at the higher price and then by making the cheaper service inferior and unsatisfactory, drive others to subscribe for the \$72 service. If this be not the real purpose, why do the officers who, a fortnight ago, were promising that the service would be improved and the rates not disturbed, now publicly admit that the service of the cheaper

'phone will be unsatisfactory because a new 'switchboard' is to be installed? "It looks very much as if the monopoly meant to extort from telephone subscribers in this city the money it invested in the Detroit telephone plant and to do it without delay. Notwithstanding fair promises it has already begun to manipulate the situation and the outcome of its efforts will unerringly be that the people will pay the company's price, \$72 a year, or do its talking face to face or through its hat. The telephone monopoly is not in the local field for its health. If it cannot carry its point by suavity, plausibility and other arts of business diplomacy, it will ultimately throw off the mask and command the public to pay its price. That's what a monopoly is formed for; that's what its owners and bosses get it built for."

MISS ALLIE LAUGHLIN

Will Direct an Entertainment
Rich and Delightful at
Grand Opera House.

The many friends and acquaintances of Miss Allie Laughlin delight to do her honor for her unselfishness in giving her services for any and every charitable measure which has been brought prominently before the public of East Liverpool in the matter of entertainments, and they purpose giving her a royal reception on Thursday night, February 8th, at the Grand Opera House, when she is to appear in selections of song, assisted by notable talent from adjoining cities. This entertainment has the promise of being a genuine treat to music lovers, and you should not be tardy in securing choice seats, but be on hand promptly when reserved seats are placed on sale. The personal friends of Miss Laughlin are rejoicing over the fact that tickets for her reception are going off like the proverbial "hot cakes." Take one for yourself, and don't forget your friends.

EAST LIVERPOOL, O., SATURDAY, FEB. 3.

FOR PRESIDENT—Second Term.
WM. McKINLEY,
 of Ohio.

MAKE YOUR CHOICE.

Republicans of East Liverpool have the opportunity of a lifetime. They have the power to nominate a man for the berth of chief magistrate of this city who will pay full and due regard to his oath of office and enforce the law to the letter. He must not be a PERSECUTOR. He must be simply an EXECUTIVE, carrying into effect the laws and ordinances which the legislative body has placed in his care for that specific purpose. No true and law abiding and honorable or desirable citizen of East Liverpool will object to such procedure on the mayor's part. An honorable and upright council will sustain the mayor in such enforcement of law. It will not do for the Republican party to nominate a weakling or an unfair or dishonorable man. Men who love the party will be careful and considerate and mass and unite in favor of a man who will command the respect and esteem of all good citizens and prove a terror to evil-doers, making our city prominent and quoted all over the land. And the position of marshal should fall upon a good and true citizen—a man who cannot be bought and sold at will, a man who will work in harmony with the chief executive and aid him in every honorable and legal endeavor for the enforcement of the laws and ordinances.

You have good and true men now in the field, gentlemen of the Republican party. Act wisely and well. Make your choice.

AUSTRALIAN SYSTEM.

By all means, leaders of the Republican party having control of the coming primary, act in good faith and make use of the Australian system of casting ballots. Make it next door to impossible for trickery and chicanery to accomplish their evil intent.

YOUR Uncle Sam leads the world in machines, from the sewing to the political.

THE EDISON HOME PHONOGRAPH

PRICE \$30.00.

A COMPLETE talking and musical machine that does the same work as the high priced instruments; and superior to all the cheap machines for music. It is simple in construction, easy to operate and costless to maintain. Equipped with a spring motor that runs six records with a single winding.

Made of steel, iron and brass throughout. No soft metal or composition. Finished in black enamel and gold, encased in oak box with illuminated oak cover, forming complete carrying case. Size 8 in. x 16½ in. x 12 in. high. Weight 25 lbs. Anybody can operate it. Full printed directions packed with each machine. Will record, will produce, will shave off. Fitted with instantaneous speaker clamps for instant interchange of speakers.

Two speakers are included free of charge, with every Edison Home Phonograph; the Edison Automatic Reproducer, and the Edison Recorder; also a sapphire shaving knife, an oak body box, oak cover, a 14-inch polished brass horn, a two-way hearing tube, a winding crank, an oil can and a camel's hair chip brush.

These parts are essential to a perfectly equipped and complete talking machine. The Home is only complete as above. The only change we make is to substitute a speaking tube for the 14-inch polished brass horn, if so desired.

PLEASANT PARTY.

We Have a Poet of No Mean Pretensions In This Pottery Center.

Mr John McShane entertained the Glee club last evening, at his home on Avondale street. The features of the evening were singing and speaking. A beautiful cuff box was given as a prize to the best singer. Misses Detemple and Ferren and Mr. Weaver were appointed judges in the contest. Mr. Weaver recited a poem composed by Mr. Owens which demonstrated the fact that Mr. Owens is a second edition of Byron. Messrs. Shinkle and Owens also gave recitations, but Mr. Jones proved to be superior to all, both in singing and speaking, and was successful in carrying off the prize. Refreshments were served and a delightful time was had.

INTEREST UNABATED.

There Was a Large Attendance at the Christian Church Last Night.

The saying of the bridegroom of Cana "Thou hast left the best wine until now" might well be said of last night's evangelistic meeting at the Christian church. The attendance was larger than for any evening since Sunday. The praise service was very profitable and enjoyable. The singing throughout was splendid. When Reverend Williams sang the solo, "Beautiful Beckoning Hands" it brought tears to the eyes of many. The thought of his sermon was that none are so bad that Christ cannot save them and none are so good that they can be saved without Christ. He used as illustrations the conversion of Paul and the conversion of Cornelius. No meeting tonight but services will be held each next week.

A NEW LINE.

Water Mains Will Be Extended to the Lands of the Grandview Company.

The water works trustees last evening granted the Grandview Land company the privilege to extend the water mains to their property, provided they paid the cost. Any others who connect to the line with a main are expected to reimburse the land company and the city will redeem the main from the company out of the income derived from the water consumers. A number of bills were ordered paid.

A DAY IN WALL STREET.

Extensive Trading In Railroad Stocks. Heavy Absorption of Bonds. Other Features.

New York, Feb. 3.—The stock speculation Friday furnished adequate proof that increased interest was being manifested by the public in the market. This supposition was based on the extensive trading in railroad stocks, which comprised properties traversing a wide area.

Important movements appeared to be under way by substantial interests, as Friday's strength developed in first one group of railroad stocks and then another until the first showed gains running from 1 to 3½ points. In connection with the enormous buying of the Baltimore and Ohio stocks, a statement that the management had sold \$8,600,000 4 per cent bonds of the road and \$2,500,000 of that of a subsidiary line to provide improvements accounted for their buoyant price.

Early operation indicated that powerful interests were engaged in the metal stocks, as prices of the metal securities followed a jump of 5 points in Tennessee coal to 104. This stock suffered acutely from realization as the day progressed and ended with a gain of but 3¼. Prices of kindred properties were better sustained, but all relapsed from the best figures.

Among the high priced industries, American Tobacco, People's Gas and Sugar achieved a commanding lead occasionally, but ended with narrow net changes. Predictions as to the character of today's bank statement were uniformly favorable, but the advance statistics show that the gain in cash from the receipts from the interior and sub-treasury operations were placed at \$2,874,115, as compared with a net gain in the previous week of \$6,184,170.

A reflection of the stock market's strength was observed in the bond operations, where the absorption was very heavy, of the low and middle grade issues. The market was broad and active, transactions aggregating a par value of \$2,380,000.

J. S. new 4s and 5s advanced ¼ and the 2s declined ½ in the bid price.

STREET CAR PATRONS

Think the Company Should Have Conductors.

LOCAL LEGAL LIGHT

Is of the Opinion That the Company Can Not Make the Passengers Pay Fare Until a Demand Is Made on Them to Do So He Gives the Law on the Subject.

There is a general demand that the street car company put conductors on their cars and keep them there for all time to come.

A prominent attorney in speaking of the matter today said: "It is a decided imposition to ask patrons of the company to walk to the front of the car every time they need change and stand there for some time trying to attract the attention of the motorman. It is not so bad in the case of younger people but when it comes to old and infirm people it is not at all the proper thing. The children who travel on the cars should be looked after and the conductor would add greatly to their safety in getting off and on the cars."

"I see there has been a great deal of stir recently about the drunken people that ride on the cars and make life miserable for the rest of the patrons. If the cars had conductors this thing would soon stop."

"Candidly, I don't think the street car company can compel the patrons to pay fare unless there is a conductor, and I base my reason on Section 6983, R. S. O., which says: 'Whoever, being requested by an employe of a street railroad company, or by an employe of a person operating a street railroad, to desist from smoking on or in a passenger car running on such road, fails to immediately do so, or whoever uses obscene, profane or indecent language, or engages in a quarrel, on or in such car, or without permission takes a dog on or in such car, or fails, on demand, to pay the proper fare on or in such car by delivering the money or a ticket, or depositing the same in a fare box as required by such employe, shall be fined not more than ten dollars, with costs of suit, and imprisoned until the fine and costs are paid; but in demand of such fare, the person of whom demand is made may immediately leave the car instead of paying the same.'

"You will notice by the statute that it says whoever fails to pay their fare on demand shall be fined, etc. Now, these fare boxes don't constitute a demand, and if the patrons of the line would pay no attention to them for a time, the company wouldn't lose very much time in putting on conductors. I understand the matter has been discussed by Trades and Labor council, but they took no action in the matter, preferring to let the Motormen's union take the initiative. I, for one, sincerely hope the street railway company will take some action in the matter pretty soon."

Mr. and Mrs. McAllister left on the evening train for East Liverpool, where they will go to housekeeping at once, where Mr. McAllister has an excellent position in one of the potteries. Those witnessing the ceremony aside from the relatives of the bride were Mr. James Russell and wife, of Salineville, and Miss Blazar, of East Liverpool.—Salineville Banner.

Board of Health Didn't Meet Last Night—The Monthly Report of Officers.

It costs money to have the smallpox and if you can get a physician for less than \$10 per day you are to be considered lucky.

The board of health didn't meet last night but Dr. R. J. Marshall had a bill for 18 days' services taking care of Thomas Putnam at \$10 per day making a total of \$180. Putnam is the East End man who had the smallpox, and it is understood the board agreed to pay Marshall the large fee. The other bills were James Murphy, \$125; J. H. Burgess, \$50; C. B. Ogden, \$25.

The report of the sanitary officer shows that he ordered 22 nuisances abated, inspected 29 typhoid fever cases, famigated two diphtheria patients and one scarlet fever and buried four dead dogs.

The report of Health Officer Ogden for the month is as follows: Births, males 19, females 23; deaths, males 7, females 10; causes of death, concussion of the brain; typhoid fever, 3; pneumonia, 3; bronchitis, 2; heart disease, 2; intestinal obstruction, cancer, convulsions, Bright's disease, grip, enterocolitis.

During the month 29 cases of typhoid, two of scarlet and one of diphtheria were reported.

WEEK'S POTTERY NEWS

New Committees of the U. S. Potters' Association.

PROMPT ATTENTION PROMISED

By the Manufacturers to the Brotherhood's Wage Scale Proposal—Six Firms Not Represented at Pittsburg Meeting The News of the Ceramic Industry.

At the joint meeting of the manufacturers and operatives held at Pittsburg this week the manufacturers were represented by the executive committee of the United States Potters' association. They were: Col. John M. Taylor, of K. T. & K., chairman; Frank Sebring, Sebring Pottery company; Henry Brunt, Edmore Bennett Pottery company, Baltimore; Daniel Willett, Willett Manufacturing company, Trenton; W. L. Smith, D. E. McNicol Pottery company; C. W. Franzheim, Wheeling Pottery company; Thomas Grey, East Boston Pottery company, Boston, Mass., and Secretary H. A. Keffer.

The committee of the potters to confer with the Interstate Commerce commission regarding unjust freight rate classification are: President, C. W. Franzheim; secretary, H. A. Keffer, and J. A. Campbell, of the Trenton Pottery company, Trenton, N. J.

MUCH BETTER SPIRIT

Than Ever Before Shown at the Potters' and Operatives' Meeting.

The Commoner and Glassworker in speaking of the manufacturers at Pittsburg says: "Regarding the joint meeting at the Hotel Henry, it may be said that while it was short and to the point, it was cordial and a much better spirit than was ever before shown was prevalent. On taking the list under consideration the manufacturers promised prompt attention and that they would report back to a meeting at an early date, which meeting will be at the call of the chairman."

NOTES OF THE PLANTS.

And Other Items That Will Interest the Pottery Trade.

Four glost kilns were drawn this week at the pottery, which means a remarkable record.—Salem Herald.

Ed. McCarron, formerly employed at Laughlin's, is now with the Union.

Hugh Jolly is a new turner at the Dresden.

Bob Hawkins is now general manager of the Union.

The Owens Pottery company are still trying to purchase that tract of land near Philadelphia. If they succeed they will erect a pottery and make the same class of ware as they make at their Zanesville plant.

The American China company has entered suit against the voluntary auxiliary to Allegheny lodge, Elks, for \$2,000. The claim is for dishes broken and lost during the Elks' carnival in Allegheny last summer.

At a recent meeting of the stock holders of the Riverside Pottery company, Wheeling, a 50 per cent stock dividend was declared.

The Lyons pottery at Lyons, N. Y., has been closed by the sheriff. It had an annual output of 750,000 gallons of stoneware.

There was a gradual increase of new business in this city during the month of January.

Six Firms Absent.

Among those not represented at the annual meeting of the potters were: George Scott's Sons, of Cincinnati; Bell Pottery company, Findlay; Crown Pottery company, Evansville; Peoria Pottery company, Peoria; Wick China company, Kittanning, and the Ford China company, Ford City, Pa.

HAYES FIGHTS ON.

BEATEN IN COMMON PLEAS AND CIRCUIT COURTS,

He Files a Supplemental Pleading Asking Mandatory Injunction.

LISBON, Feb. 3.—[Special]—The Circuit court this morning refused to grant the temporary injunction sought by Albert Hayes, of Salem, to restrain the Columbiana County Telephone company from erecting a pole in front of his property on Lundy street, Salem. As the pole is up and wires strung, the court held the company could not be restrained from doing what it had already done.

Hayes will file a supplementary pleading asking for a mandatory injunction to compel the company to remove the pole and wires. This, however, will not be decided until the next term of court.

The Circuit court's decisions in the other cases heard at this sitting are expected Monday.

ARMED CLASH FEARED.

The Kentucky Democrats May Organize Militia.

APPREHENSION OF TROUBLE TODAY

Judge Cantrill Very Likely to Issue Restraining Order Against Taylor, Which He Probably Will Ignore—A Would-be Summons-server Imprisoned.

FRANKFORT, Ky., Feb. 3.—There can no longer be any concealment of the fact that affairs in this state are bordering upon conflict in arms, and the beginning of the crisis is at hand. It may be that the political difficulties will be settled by the courts of law, but the hearts of men are hot in Kentucky now and legal process may prove a remedy too dilatory to please a few of the more impatient, and it is in the power of these to create a world of woe at almost any time.

Alonzo Walker, a stenographer employed by the Democratic attorneys, was placed under arrest in the capitol grounds, charged with conduct intended to incite mutiny and riot. The conduct consisted in planning to the door of the private office of Governor Taylor a notice that today the Democratic attorneys would appear before Judge Cantrill, of the circuit court, and ask for an injunction restraining Governor Taylor from all interference with the movements of the legislature and from his announced attempt to remove it to London, in this state. Walker was at once taken into custody by orders of Colonel Roger Williams, the commanding officer of the forces now gathered around the capitol.

The Democrats filed a long petition stating their side of the case.

Service was secured, despite the most stringent orders to the sentries to allow nobody to pass in or out of the capitol grounds. Orders to this effect were given early in the morning, but were revoked later, and those having passes were allowed free access to all parts of the capitol square.

As soon as word was brought to Governor Taylor that the petition for the injunction had been filed, the orders were renewed, but they were not renewed quick enough. Alonzo Walker, soon gained an entrance to the grounds before the renewal of the order, and watching his chance, placed a copy of the notice on the door of the executive mansion, which action constituted a legal notice to Governor Taylor. Walker was at once placed under arrest and is now in the guard house.

There is no doubt that the injunction will be granted. Judge Cantrill has the reputation of being a man who will attempt by all means in his power to enforce the rulings handed down from his bench. He will most certainly use all the power in his hands to secure the operation of his injunction. It is equally certain that the Republicans will pay no attention to Judge Cantrill or his writs. The Democrats claim that the action of the Republicans in arresting Walker while he was attempting to carry out the orders of the court, has placed them in contempt of court, and they will make all of the point possible.

A clash may come when the officers of the court attempt to force the rulings of its presiding judge. Behind this judge the Democrats will have today, for the first time, an active executive head in the person of Acting Governor Beckham and, from the Democratic standpoint, a regularly appointed adjutant general, whose orders the troops now encamped around the capitol building are bound to obey. If they decline to obey, the new adjutant general will, the Democrats claim, have the power to organize military forces of his own and proceed against all people who defy the authority of his office and that of the governor of the state, whom he represents.

On the other hand, the Republicans are fixed in their attitude that there is an insurrection in the state, that Beckham and his actions, his adjutant general and his orders are those of people acting in opposition to law. They believe that they alone are in the right, and as there can be but one right and all else wrong, those who show resistance to the proclamations of Governor Taylor are in rebellion against the commonwealth. They will resist any attempt of any kind to remove them from their position around the capitol, meeting force with force, and that means civil war.

GOEBEL AS GOVERNOR.

Democratic Legislators Met and Affirmed Action of Both Houses—Will Not Resist Arrest.

FRANKFORT, Ky., Feb. 3.—The Democratic members of the legislature met in a secret caucus at the Capitol hotel and re-elected William Goebel as governor

and J. C. W. Beckham lieutenant governor of Kentucky. This action was first taken by the houses in separate session and immediately afterwards in joint session.

The members of the senate elected as president pro tem. Senator Carter, who was nominated for that position at a recent caucus.

A committee of the members of the house, composed of Representatives Finn, Lattery and Cochran, was also appointed to draw up a set of resolutions showing the condition of affairs as it exists at the state capital, and covering thoroughly the Democratic side of the controversy. These resolutions will be formally presented to the next session of the Democratic members of the legislature, to be held Monday.

Though none of those who attended the caucus cared to discuss the matter, it seems to be well understood among the Democratic members of the legislature that the session at London will be ignored altogether by them and that the Democratic will attend "until compelled to do so." It was practically decided that no more demands will be made to hold sessions of the legislature in the state house by the Democratic members in a body, who will, however, continue to hold sessions at some convenient place, until the political atmosphere has cleared.

If arrests are attempted, no resistance will be made by the Democrats, either to arrest or to attending the session at London should they be arrested.

EPWORTH LEAGUE.

Topic for the Week Beginning Feb. 4, "Things That Endure." Text, Math. vii. 21-27.

"It fell not, for it was founded upon a rock."

It does not take long for even a child to learn the difference between rock and sand foundations. Playhouses in the sand are ruined after a heavy shower, and a few repetitions of the experience are enough to teach the most ignorant to look for a better place.

It is equally plain to those who are teachable that "no lie prospers," yet men keep on trying to make great schemes stand on the quicksands of falsity. Collapse is inevitable. Happiness is with great skill built upon impurity and lust, with the false hope that it will endure. No cyclone is needed to demolish the structure. It crumbles into shapeless and irretrievable ruin by its own weight. The foundation gives out from under.

When Sir Christopher Wren was called upon to rebuild St. Paul's cathedral, London, he planned to place the new building on slightly different lines from the old one. All went well till they came to lay the foundations for the northeast corner. The hard brick earth on which the rest of the building rested had at some time previous been removed from here. He lacked only six feet to complete his design. Some counseled him to drive piles through the sand and gravel to the hard earth below. He knew better than to risk his building so. He made a crib of plank 18 feet square and dug till he struck the hard beach of the Thames at low water mark, 40 feet below surface, bored the beach till he came to original clay, then built a pier of solid masonry ten feet square almost to the surface and turned an arch from it to the original wall of the old church, and on this the northeast corner of St. Paul's rests secure.

You cannot always do as the fathers did in bygone years, but when you get off the old lines be sure your building bottoms on original clay or rock below all shifting sand or gravel.

Put It Down.

John Wesley kept a strict cash account until the very last months of his life and gave it up at last only when failing eyesight and strength compelled him, writing then as his last entry, "I am convinced I save all I can and give all I can."

It is surprising when a person begins to keep careful account of all expenditures how much more cash goes for "incidentals" and little things than was suspected. It is as surprising to most people, also, how small the "benevolent account" looks on paper compared with what it was thought to be before it was watched.

One of the principal advantages in keeping the account of gifts to the church and to the various charitable causes is found in the increased interest aroused in ourselves in them and the pleasure with which we respond to a sudden call for aid when we have a special fund to draw on instead of having to draw from the ordinary purse from which we pay for most things.

One of the most enjoyable things pos-

sible is for a person receiving wages or any income to regularly lay aside a definite sum to be used only in God's work and then invest it to the best advantage for Him.

The Parables In Art.

The artists of ancient and modern times have done much to make the Bible teachings plain and striking. Epworth Leaguers should study pictures. Never before were the world's treasures of art so accessible as now. Reproductions of excellent quality are now to be had at prices remarkable for cheapness. Have an evening with pictures of the parables of Christ. Explain the artistic meaning. Point out the excellencies and eccentricities of the picture. Get at the hidden meaning of the lesson and draw out its application.

This year we are to spend in this great picture gallery of the New Testament, the parables of Jesus. All the Endeavor, League and Baptist union societies have the same topics. Never before was there such united study of this part of the Holy Scriptures. Photographic illustrations of Bible lands have become common and have done much to give accurate and adequate ideas of the scenes of Scripture history. Here lies a new opportunity to become familiar with the Christian artists who have labored side by side with Christian writers and preachers to spread gospel truth.

Plans For the Winter.

The long evenings will soon be here. The young people of city and country will want to meet together. This will be an eventful season in many lives. Attachments will be formed which will hold much of happiness or misery in store. The time can be worse than wasted or can be made to yield richest treasure. There are in every place young people who can be easily influenced. One good leader can gather a company and direct their thought and efforts any way he chooses. If you have any wish to help yourselves and others, call in those of like mind and lay plans at once. Select some line of work and lay out a course for the winter. Take the story of our own land and let the different members look up the chapters from pilgrim fathers to the Philippine campaign or spend awhile in searching the things of early Methodism. Put in a little science on the line of electrical development and art, studying the work of the great painters, sculptors and architects. The popular magazines and photographs will help much. Spend an evening on the Siberian railroad, one on China or Japan. Such plans will hold interest and be of some value.

NO FEDERAL INTERFERENCE

President McKinley Informed Senator Blackburn the Situation In Kentucky Did Not Warrant It.

WASHINGTON, Feb. 3.—The president decided that the Kentucky situation is not in such condition as to warrant federal interference. Almost immediately upon the receipt of Governor Taylor's message the president took up the question, and consulted authorities on points with which he was not familiar. A decision was reached at once, and when Senator-elect Blackburn, with Representatives Rhea, Allen, Gilbert, Smith and Wheeler called to protest against federal interference in Kentucky, the president promptly gave them to understand that he had already reached a conclusion on the subject and that he had found that the situation did not warrant the federal authorities in interfering. This decision was announced to the cabinet immediately upon its convening.

Attorney General Griggs, Secretary Root and the other lawyers of the cabinet sustained the president's conclusions. The law, which must govern in this case, authorizes federal action only when the legislature is not in session and cannot be convened. Governor Taylor's message does not intimate that the legislature of the state can not be promptly convened, nor does he show that the conditions in Frankfort are such as would justify federal intervention.

The president and the members of his cabinet, without exception, recognize the fact that the legislature of the state of Kentucky, by a majority thereof, is the sole judge of which of the two contestants was elected governor of the state at the recent election.

The Japanese have three forms of salutation—one for saluting an inferior, one for saluting an equal and another for saluting a superior.

There are 48 different materials used in constructing a piano, from no fewer than 16 different countries, employing 45 different hands.

You may run away from hydrophobia, because you can see it coming in the frothing tongue and the snapping jaws of the mad dog. But the diseases which carry off the greater part of mankind there's no running away from. They are stealthy, insidious, and come as a thief in the night.

Six per cent. of the daily deaths are due to consumption. The name of the disease suggests the horror of emaciation, the labored breathing, the hectic color, the night sweats which mark the struggles of the daily weakening victim.

To those with weak lungs, obstinate, lingering cough, bronchitis, and kindred ailments which, if neglected, lead on to consumption, Dr. Pierce's Golden Medical Discovery brings hope, help and healing. Its cures have been many and marvelous. Thousands who had lost hope, have found a permanent cure in "Golden Medical Discovery."

"Last spring I wrote you in regard to my health which at that time was very poor," writes Mrs. Mattie M. Barnes, of Garfield, Pawnee Co., Kansas. "My trouble was a bronchial affection. Symptoms: spitting of blood almost every morning for five years, shortness of breath, raw and sore throat, loss of strength at times almost loss of voice, irregular periods. In fact I thought I was surely going into consumption. I consulted you and you advised me to give Dr. Pierce's Golden Medical Discovery a trial, which I did, and with happy results. I used two bottles of 'Golden Medical Discovery' and health returned as I used the medicine. I have only raised blood three times since I began using it. My periods are regular, strength returned, and I am almost a new person. I know of a lady that was cured of consumption by this same 'Golden Medical Discovery,' and she always sings its praise."

Some dealers may offer you a "just as good" medicine in place of Dr. Pierce's, because there's more profit in the sale of the substitute. If any dealer thinks more of his profit than of your patronage, he's not entitled to your trade.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Feb. 4.—Comment by Rev. S. H. Doyle.

Topic.—Things that endure.—Math. vii, 21-22. (Christian Endeavor day.)

Christian Endeavor is now 19 years of age. It has stood the test of almost a quarter of a century and is still strong and powerful and possesses the characteristics of things that endure. According to the lessons of the topical reference, Christ's closing words in the sermon on the mount, the things that endure possess several characteristics: 1. They must be divinely inspired, being "the will of the Father." 2. They must be founded upon divine principles, upon the rock Christ Jesus. 3. Their purpose must be divine. They must be done unto Christ.

Nineteen years of Christian Endeavor have proved that it possesses these characteristics of endurance.

1. Christian Endeavor is divinely inspired. It is the will of the Father. The providential factor in Christian Endeavor was long emphasized, and it should not be forgotten today. Its rapid growth, its wonderful adaptability to all denominations and to all countries, its marvelous work, all pointed to the fact that it was a movement inspired of God. This is still our belief. And, if divinely inspired, we may believe that it will endure, because it was inspired to meet a need that is ever present in the church.

2. Christian Endeavor is founded upon Divine principles. The Christian Endeavor constitution, the pledge, the consecration service, the committee work, are directly founded upon the word of God, which is not to pass away. It possesses this essential of endurance, and that it may endure these principles need more than ever today to be emphasized. The pledge, the consecration service, the committee work, all need to be revived. A new generation of young people has arisen who need to know about them, and many who once knew seem to have forgotten. Let us have a revival in Christian Endeavor, a revival of its fundamental principles, which are founded upon God's eternal word, and we will add much to the endurance of the movement.

3. The work of Christian Endeavor is divinely purposed. It is "for Christ and the church." Christ may say to Christian Endeavorers, "Ye did it unto Me," and therefore not only will the movement endure, but the work that it does will find an eternal endurance in the life beyond this world. May this anniversary day become an inspiration to Endeavorers everywhere, and may Christian Endeavor receive a baptism from on high that will give it new confidence in and new zeal for the future.

THE PRAYER MEETING.

If possible, use the United Society's special programme for C. E. day. If not, arrange a special programme, with addresses or papers on these subjects:

1. "The Past of Christian Endeavor."
2. "The Present of Christian Endeavor."
3. "The Future of Christian Endeavor."

Bible Readings.—Ps. ix, 7; lxxii, 17; xc, 1; civ, 31; cxxi, 1-8; Dan. xii, 3; Math. xxiv, 35; Luke vi, 47-49; 1 Cor. xv, 58; Gal. vi, 9; Jas. i, 9-12; 1 Pet. i, 3-5, 25; 1 John iii, 15-17; Rev. ii, 7.

A Church Upside Down.

"At Clapham, in England, there is a bell which bears an inscription, 'God save the Church.' But through some blunder the word 'church' is upside down. The blunder is, unfortunately, suggestive as to the real state of affairs in many churches. But the Lord is a lover of order, and the thing to do is not alone to pray, 'God save the church,' but also to entreat that God will save it from being upside down."

Perhaps the reader has seen some such churches—he may belong to one for that matter. An "upside down" church may be described as follows: It has a membership that belongs to business, pleasure and the like rather than to the Lord. It has a lot of empty seats, a lot of unpaid dues on its record books, a lot of members fighting with each other, a lot of societies for the running of entertainments and for the prevention of duty to the church. It has a Sunday school that belongs to some individual rather than to the congregation, a church council that looks to the pastor for the transaction of its business and an organist and choir that are interested more in performances than in worship. Is your church one of that kind?—New York Observer.

Religion In Japan.

The religious condition of Japan is

something remarkable in an examination of three schools is any indication. Of the 400 students examined, 282 claimed to be agnostics, 60 atheists, 15 Buddhists, 4 Christians, and only one was an adherent of Shintoism. Japan's objection to being called a heathen nation would, according to this, seem to be well founded. In a catalogue of religions it is difficult to say where Japan should be placed, but this examination may serve to show some of the difficulties which Christian missionary laborers in that country will be called upon to meet.—Exchange.

YEAR'S TRADE MUCH DONE.

In Work Accomplished, Dun's Review Said Past Month Probably Surpassed All Others.

NEW YORK, Feb. 3.—R. G. Dun & Co.'s weekly review of trade issued today said in part: This year starts with much of the year's business already done, and all comparisons will prove misleading if that fact is not taken into account. Last year the certainty of great improvement had come before the year opened, and there was a rush to get in orders before works became crowded and prices advanced. This year, the works were already crowded for months ahead in most lines, and prices had already advanced so far that record had already commenced in some branches and was thought probable in others. With one exception of women's manufacture, the chief industries have met less new business in January than last year, though deliveries on previous contracts have been larger than a year ago.

In work turned out, the past month probably surpasses all others, and, rightly considered, the fact that new contracts for works already well supplied are smaller than last year, is not of itself discouraging. The great burst of speculation last year swelled January payments through clearing houses far beyond those of this year at New York, and such payment at other cities also averaged per business day a shade larger than this year. But a much greater decrease must have appeared in transactions connected with formation of new companies.

Wheat rose 1 cent, but soon reacted. Atlantic exports only 1,165,592 bushels, flour included, for the week, against 1,942,436 last year, had more influence than the decrease in western receipts, which have been for the week 43 per cent and, for five weeks 40 per cent less than last year, while the decrease in Atlantic exports for five weeks has been 57 per cent. Pacific exports have been 4,200,390 bushels in five weeks, against 3,610,552 last year. The price of corn is fairly steady, with exports for the week much smaller than last year, but in five weeks 16,119,849 bushels, against 16,549,514 last year. The western receipts decrease much more than the exports.

Wool is rather weaker in some grades, but stronger in others, so that the average quotations is steady notwithstanding some sales at concession. The mills which have taken extraordinary orders for the heavy weight season without afterwards looking for wool, obviously have on hand large stocks, so that the market depends upon the sufficiency of the supplies they hold. Prices of goods are still rising a little, but are yet relatively lower than the material.

Boot and shoe manufacturers have passed all records in deliveries, nearly 20 per cent beyond those of January last year, but new orders have been greatly restricted. Recent sales of hemlock sole and of rough leather show a decline of 1 cent, however, while hides at Chicago continue their gradual decline.

The iron and steel industry is so far tied up by contracts reaching through most of the year that the effect of production exceeding consumption is felt only in some branches. A little lower prices have been made for foundry iron in considerable transactions, though Bessemer does not yield, but steel billets are offered by some at \$33 per ton. Differences between producers and some of the largest consumers of steel block the market. In plates and bars concessions are still made to secure business; in sheets the demand is stronger, and in rails, structural forms, tinplates and nails prices are held firmly.

Failures for the week have been 232 in the United States, against 224 last year, and 34 in Canada, against 25 last year.

UNION LABELS

It should be a deep-rooted principle of all union workmen and union sympathizers and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours and union labor employed.

UNION PAPERS.

All Union papers of East Liverpool are drawn to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns.

PATRONIZE UNION CLERKS.

When you buy goods from a clerk, ask him to show this card.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE CLOTHES.

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL.

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold.

The Label will be placed on the upper front side of the tube that receives the seat post.

UNION BREAD AND CRACKERS.

This is a full size facsimile of the Label of the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions.

TWO CENTS

ON JEFFERSON'S PLAN

Govern Philippines Like He Did Louisiana.

THE COMMISSION SO RECOMMENDS.

Declared Their Proposed System Even More Liberal—Aguinaldo's Scheme of a Protectorate Asserted to Be Chimerical—Recommend Retaining Islands.

WASHINGTON, Feb. 3.—The president transmitted to congress the first volume of the report of the Philippine commission. It is a volume of 264 pages, including the appendix, and is signed by Prof. Schurmann, Admiral Dewey, Colonel Denby and Prof. Worcester. The principal subject dealt with is the plan of government proposed by the commission, which includes a discussion of the Spanish government existing prior to the war, the various reforms desired by the Filipinos and the constitutions proposed by them, together with the conclusions and plans suggested by the commission. The report also covers many other matters connected with the social administration of the islands, racial characteristics, education, secular and religious orders, the Chinese in the islands, public health, currency, etc., as well as the condition and needs of the United States in the Philippines from a naval and maritime standpoint. The second volume of the report, which will not be ready for several weeks, will contain a detailed study of the climate and natural resources of the island. The chief interest in the report naturally centers in the plan of government proposed by the commission.

The commission announces itself unequivocally in favor of a government of the Philippines and analogous to that of a territory of the United States, with a governor appointed by the president. They say it is desirable that the inhabitants of the archipelago should enjoy a large measure of home rule in local affairs, their towns to enjoy substantially the rights and privileges of towns in a territory.

The provinces should be vested with substantially functions of a county in a territory; this system might be applied to Luzon and the Visayan islands at once and a beginning might be made on the coast of Mindanao. The Sulu archipelago, calling for special arrangements with the sultan, the commission says need not be considered in this connection.

The Filipinos could manage their own town and county affairs through their own officers, whom they could elect with no help from American officials, except such as would be involved in control from the central government at Manila. The suffrage should be restricted by educational or property qualifications, or both. This system would necessitate a small body of American officials of great ability and integrity and of patience and tact in dealing with other races, and on this account the commission recommends that they should be paid high salaries. The commission says they could be called advisers or commissioners and that one for every 250,000 natives should suffice. It would be the duty of such commissioners to report upon their work to the central government at Manila. Their main function would be to advise town and county councils in the discharge of their duties and to watch the collection of revenue and its expenditures.

The kind of a protectorate which the insurgent leaders desired, the commission says, is one in which the United States would assume all responsibility for protecting the Philippine government against foreign aggression, while their own officials would collect revenues. The report further says in part:

"Under the chimerical scheme of protection cherished by Aguinaldo if a foreigner lost his life or property through a miscarriage of justice in a Philippine court, or in consequence of a governor's failure to suppress a riot, then the United States would be responsible for indemnity to the foreigner's government without possessing the power of punishing the offenders or of preventing miscarriages of justice or of protecting itself against similar occurrences in the future. Nor could the liability to foreign nations be reduced without permitting them directly to seek redress, and such a course would, it is to be feared, speedily lead to the appropriation of the Philippine islands by the great powers, who would not seek far for pretenses for intervention."

"There is no analogy," says the commission, "between the relation of the self-governing colony of Australia or of Canada to Great Britain and that of the Philippine islands to the United States. Instead of community of blood, race and language there is the greatest diversity; and, instead of a common political experience, the one has already breathed the air of freedom, the other has been repressed by despotism. Clearly the plan of a self-governing colony is a misfit to the Philippines."

The commission then discusses the other two types of British colony—crown colonies and colonies having representative institutions. But no responsible government, typified by British Guiana and Hongkong respectively, but neither style of government the commission points out, after lengthy argument, should be applied to the Philippines.

The commission takes as a basis for the government proposed the territorial organization of Louisiana. The act is set forth in full. It pro-

vides for a governor and secretary of the territory, and vests the legislative power in a council appointed annually by the president. Courts are also provided for. "This scheme of government," says the commission, "possesses besides its intrinsic merits, the historical interest attaching to origin nation with the author of the Declaration of Independence. Jefferson had outlined a first sketch as early as 1803. He seems to have felt no incongruity between the principles of the Declaration of Independence and the self-governing colonies and this scheme of government for the politically inexperienced inhabitants of Louisiana. Indeed, he complains with some bitterness, in December, 1823, when differences of opinion developed as to the manner of disposing of Louisiana, that 'although it is acknowledged that our new fellow citizens are as yet incapable of self-government as children, yet some cannot bring themselves to suspend its principles for a single moment.'"

From the commission, however, the commission believes it safe and desirable to extend to the Filipinos larger liberties of self government than Jefferson approved of for the inhabitants of Louisiana, assuming that in the Sulu archipelago and such portions of the other islands as are occupied by tribes of Indians, the government will be conducted through the agency of their sultans or chiefs. The commission believes that the people of the islands should be permitted to elect at least members of the lower branch of the territorial legislature and that at least half the members of the upper house should be appointed by the president. With such safeguards in American hands and a qualified veto power for the governor general (including the right to suspend the law for a year even after its passage by a vote of two-thirds of the legislature over his veto), this plan of government, which is on the lines of the constitution prepared for the commission by those Filipinos who sought to adjust the claims of the insurgent leaders to the rights of American sovereignty, would probably be adequate for the purposes of good government. This is especially true, the commission says, since congress may and should retain the right to veto territorial legislation. Nearly all the offices will, under this form of government, be filled by Filipinos themselves.

The commission suggests that a civil service board, to ascertain by competitive examination of a practical character the qualifications of Filipinos seeking office, should be instituted, and there should be promotions for merit and tenure during efficiency and good behavior. The small number of American officials needed, would include in the first group governor, secretary, attorney general, certain judges and other officials of the territorial government and in the second group heads of postal, customs and other departments. The officers of the first group should be appointed by the president and of the second transferred from the home service. In neither case should there be examination.

The commission, while not underrating the difficulty of governing the Philippines, is disposed to believe the task easier than is generally supposed. The Filipinos, they say, are of unusually promising material, possessing admirable personal virtues and being naturally docile, docile and deferential to constituted authority. Those that are educated will be of a finite value to the United States in the work of establishing and maintaining civil government throughout the archipelago.

The commission concludes:

First—The United States cannot withdraw from the Philippines. We are there and duty demands it.

Second—The Filipinos are wholly unprepared for independence and, if independence were given to them they could not maintain it.

Under the third head is included a copy of Admiral Dewey's letter to Senator Lodge which was read in the senate the other day denying Aguinaldo's claim that he was promised independence.

Fourth—There being no Philippine nation, but only a collection of different peoples, there is no general public opinion in the archipelago, but the idea of property and education who alone interest themselves in public affairs, in general recognize as indispensable American authority.

Fifth—Congress should, at the earliest practicable time, provide for the Philippines a form of government herein recommended or another equally liberal and beneficial.

Sixth—Pending any action on the part of congress, the commission recommends that the president put in operation this scheme of civil government in such parts of the archipelago as are at peace.

Seventh—So far as the finances of the Philippines permit, public education should be promptly established, and when established made free to all.

Eighth—The greatest care should be taken in the selection of officials for administration. They should be men of the highest character and fitness, and partisan politics should be entirely separated from the government of the Philippines.

UNITED STATES BROAD.

Majority of a House Sub-Committee Reported It Covered the New Lands Acquired.

WASHINGTON, Feb. 3.—At a special meeting of the house ways and means committee reports were received from the sub-committee, which has considered to what extent the term "United States," as used in the constitution, relates to the outlying territory recently acquired by this country.

A majority of the sub-committee, comprising the Republican members, reported in substance that congress had practically unlimited power in dealing with these territories. The minority,

SHUT OFF PETTIGREW'S SPEECH.

Point of Order Did It in Senate—Allen Arraigned Gage.

WASHINGTON, Feb. 3.—An effort by Senator Pettigrew, of South Dakota, to discuss the Philippine question in the senate was of no avail, as he was met by a point of order which took him from the floor. He had gotten only so far as to charge that the great journals of the country would not publish the facts concerning the Philippine war. Subsequently he offered another resolution, on which he will speak next week. Senator Allen, of Nebraska, concluded his speech in arraignment of Secretary Gage, because of his transactions with the National City bank of New York. He had previously introduced a resolution providing for an investigation by the senate of the treasury department, but objection to its consideration sent it over until next week.

FORWARDED MONEY TO BOERS.

Secretary Hay Sent Contributions Collected by a St. Louis Paper.

WASHINGTON, Feb. 3.—Secretary Hay received the sum of \$750, collected by the St. Louis Westliche Post and transmitted to the department of state by Mr. Pretorius, to be used for the benefit of the widows and orphans of Boer soldiers.

The secretary forwarded the money by the mails to Adelfert Hay, United States consul at Pretoria, to be turned over to President Kruger for the purpose specified. Mr. Pretorius' letter was also sent forward. The action of the state department, it was explained, applied only to contributions for charitable objects.

Indian Appropriation Bill Considered.

WASHINGTON, Feb. 3.—The house devoted its attention to the Indian appropriation bill. It got no further, however, than the appropriations for Indian schools, where an effort was inaugurated by Fitzgerald, of New York, to permit the secretary of the interior to contract with schools for the education of Indian children where the government lacks facilities. No appropriation is made for contract schools in the bill. It is claimed the present Indian school facilities are inadequate.

TO FIGHT GENERAL BULLER.

Laysmith Reported Boers Moving Toward Tugela—Methuen's Camp Probably Base For Invasion.

LONDON, Feb. 3.—4:10 a. m.—Heliograms flashed from Ladysmith three days ago say that the Boer investment lines then were thinning and that the best of the Boers were moving in force toward the Tugela, indicating that a collision was expected there. This intelligence bears out other signs that General Buller purposed a fresh attack.

Lord Kitchener has been traveling from army to army in Northern Cape Colony, and General French, by instructions, is now in Cape Town consulting with Lord Roberts. Large engineering constructions are proceeding at Modder River, suggesting that Lord Methuen's fortified camp has been selected as the base from which to invade the Free State.

"General Buller's retreat," says the Cape Town correspondent of The Standard, "has resulted in a recrudescence of treasonable talk here."

It is learned that the war office intends to increase the regular army by 15 battalions of infantry, adding these to the existing regiments.

Seven Lost in Shipwreck.

WASHINGTON, Feb. 3.—The following telegram was received by Assistant Secretary Hill from United States Consul Grinnell at Brownsville, Tex.: "Schooner *St. Ann*, from Galveston for Brazos and San Antonio, wrecked on the Mexican coast. Seven lives lost."

Hague Treaty Likely to Be Ratified.

WASHINGTON, Feb. 3.—The senate, in executive session, took up The Hague peace treaty. There was a brief discussion of it, but no opposition was developed. The treaty would have been ratified, but under the rule it had to lay over 24 hours after being read.

Condition of Phelps.

NEW HAVEN, Feb. 3.—There was no change in the condition of the Hon. Edward J. Phelps, ex-minister to England, who is ill with pneumonia here.

COAL SCALE SIGNED

Satisfactory to All Except Illinois People.

AN ADVANCE OF 21.21 PER CENT.

This Is What the Agreement in General Provides—Dolan Called a Meeting of No. 5 District Delegates For Feb. 13, In Pittsburg.

INDIANAPOLIS, Feb. 3.—After a joint conference, lasting nearly two weeks, the delegates from the United Mine Workers of America and the Interstate Operators' association finally adopted a scale, which is a compromise between the first demand of the former and the first offer of the latter.

The scale provides for a general advance of 21.21 per cent, and is satisfactory to operators and miners of Ohio, Pennsylvania and Indiana, but not of Illinois. Patrick Dolan, president of District No. 5, of the United Mine Workers, has called a meeting of the district delegates, to meet in Pittsburg Feb. 13.

A motion was carried to meet at Columbus, on the second Tuesday in February, 1901.

GOV. GOEBEL

SOME BETTER

FRANKFORT, Feb. 3.—Early this morning Governor Goebel was resting comfortably. His kidneys were said to be performing their functions better, obviating in a degree the danger of uraemic poisoning. Dr. Williams said he breathed entirely from his left lung; the right lung was clotted with blood, which prevented further bleeding, but later will prove somewhat a source of danger. The clotted blood will decompose in about eight days, and then it may be necessary to remove a section of a rib in order to remove the decomposed blood. The wound will then be drained and the danger then will be from secondary hemorrhage. His iron will and splendid constitution were said to be the main features in keeping him alive.

THE LAWTON FUNERAL

It Will Be Held In a Presbyterian Church, In Washington, Friday. Interment at Arlington.

WASHINGTON, Feb. 3.—After telegraphic correspondence with Mrs. Lawton, it was finally arranged that the funeral services over the remains of the late Major General Henry W. Lawton, U. S. V., shall be held in the Church of the Covenant (Presbyterian) in this city next Friday afternoon at 2 o'clock, and that the interment shall be in the national cemetery at Arlington. The religious services will be conducted by Rev. H. M. W. Stryker, president of Hamilton college, Clinton, N. Y., assisted by Rev. Dr. Hamlin, pastor of the Church of the Covenant, and other clergymen.

General Lawton and his family were members of the New York Avenue Presbyterian church, and the funeral services would have been held there but for the fact that its location was not regarded as suitable for the proper movement of the large number of troops that will participate in the ceremonies.

A telegram has been received from General Snider saying that the funeral party will reach here Thursday afternoon.

The total of the Lawton fund Friday was \$97,002.

The second volume of the report, which will not be ready for several weeks, will contain a detailed description of the climate and natural resources of the islands. The chief interest in the report naturally centers in the plan of government proposed by the commission.

The commission announces itself unqualifiedly in favor of a government of the Philippines and analogous to that of a territory of the United States, with a governor appointed by the president. They say it is desirable that the inhabitants of the archipelago should enjoy a large measure of home rule in local affairs, their towns to enjoy substantially the rights and privileges of towns in a territory.

The provinces should be vested with substantially the functions of a county in a territory; this system might be applied to Luzon and the Visayan islands at once, and a beginning might be made on the coast of Mindanao. The Sultan archipelago, calling for special arrangements with the sultan, the commission says need not be considered in this connection.

The Filipinos could manage their own town and county affairs through their own officers, whom they could elect with no help from American officials, except such as would be involved in control from the central government at Manila. The suffrage should be restricted by educational or property qualifications, or both. This system would necessitate a small body of American officials of great ability and integrity and of patience and tact in dealing with other races, and on this account the commission recommends that they should be paid high salaries. The commission says they could be called advisers or commissioners and that one for every 250,000 natives should suffice. It would be the duty of such commissioners to report upon their work to the central government at Manila. Their main function would be to advise town and county councils in the discharge of their duties and to watch the collection of revenue and its expenditures.

The kind of a protectorate which the insurgent leaders desired, the commission says, is one in which the United States would assume all responsibility for protecting the Philippine government against foreign aggression, while their own officials would collect revenues. The report further says in part:

"Under the chimerical scheme of protection cherished by Aguinaldo if a foreigner lost his life or property through a miscarriage of justice in a Philippine court, or in consequence of a governor's failure to suppress a riot, then the United States would be responsible for indemnity to the foreigner's government without possessing the power of punishing the offenders or of preventing similar occurrences in the future. Nor could the inability to foreign nations be reduced without permitting them directly to seek redress, and such a course would, it is to be feared, speedily lead to the appropriation of the Philippine islands by the great powers, who would not seek far for pretenses for intervention."

"There is no analogy," says the commission, "between the relation of the self-governing colony of Australia or of Canada to Great Britain and that of the Philippine islands to the United States. Instead of community of blood, races and languages there is the greatest diversity; and, instead of a common political experience, the one has already breathed the air of freedom, the other has been repressed by despotism. Clearly the plan of a self-governing colony is a misfit to the Philippines."

The commission then discusses the other two types of British colony—crown colonies and colonies having representative institutions, but no responsible government, typified by British Guiana and Hongkong respectively, but neither style of government the commission points out, after lengthy argument, should be applied to the Philippines.

The commission on takes as a basis for the government proposed the territorial organization of Louisiana. The act is set forth in full. It pro-

vides for a governor and secretary of the territory, and vests the legislative power in a council appointed annually by the president. Courts are also provided for. "This scheme of government," says the commission, "possesses besides its intrinsic merits, the historical interest attaching to origin with the author of the Declaration of Independence. Jefferson had outlined a first sketch as early as 1803, he seems to have felt no incongruity between the principles of the Declaration of Independence and the scheme of government for the politically inexperienced inhabitants of Louisiana. In deed, he complains with some bitterness, in December, 1823, when differences of opinion developed as to the manner of disposing of Louisiana, that 'although it is acknowledged that our new fellow citizens are as yet as incapable of self-government as children, yet some cannot bring themselves to suspend its principles for a single moment.'"

From the commission, however, the commission believes it safe and desirable to extend to the Filipinos larger liberties of self government than Jefferson approved of for the inhabitants of Louisiana, assuming that in the main archipelago and such portions of the other islands as are occupied by tribes of Indians the government will be conducted through the agency of their sultans or chiefs. The commission believes that the people of the islands should be permitted to elect at least members of the lower branch of the territorial legislature, and that at least half the members of the upper house should be appointed by the president. With such safeguards in American hands and a qualified veto power for the governor general (including the right to suspend the law for a year even after its passage by a vote of two thirds of the legislature over his veto), this plan of government, which is on the lines of the constitution prepared for the commission by those Filipinos who sought to adjust the claims of the insurgent leaders to the rights of American sovereignty, would probably be adequate for the purposes of good government. This is especially true, the commission says, since congress may and should retain the right to veto territorial legislation. Nearly all the offices will, under this form of government, be filled by Filipinos themselves.

The commission suggests that a civil service board, to ascertain by competitive examination of a practical character the qualifications of Filipinos seeking office, should be instituted, and there should be promotions for merit and tenure during efficiency and good behavior. The small number of American officials needed could include in the first group governor, secretary, attorney general, certain judges and other officials of the territorial government and in the second group heads of postal, customs and other departments. The officers of the first group should be appointed by the president and of the second transferred from the home service. In neither case should there be examination.

The commission, while not underrating the difficulty of governing the Philippines, is disposed to believe the task easier than is generally supposed. The Filipinos, they say, are of naturally promising material, possessing admirable personal virtues and being naturally docile, docile and deferential to constituted authority. Those that are education will be of a fine value to the United States in the work of establishing and maintaining civil government throughout the archipelago.

The commission concludes:

First—The United States cannot withdraw from the Philippines. We are there and duty has us remain.

Second—The Filipinos are wholly unprepared for independence and, if independence were given to them they could not maintain it.

Under the third head is included a copy of Admiral Dewey's letter to Senator Lodge, which was read in the senate the other day denying Aguinaldo's claim that he was promised independence.

Fourth—There being no Philippine nation, but only a collection of different peoples, there is no general public opinion in the archipelago, but the main of property and education who alone interest themselves in public affairs, in general recognize as indispensable American authority.

Fifth—Congress should, at the earliest practicable time, provide for the Philippines the form of government herein recommended or another equally liberal and beneficial.

Sixth—Pending any action on the part of congress, the commission recommends that the president put in operation this scheme of civil government in such parts of the archipelago as are at peace.

Seventh—So far as the finances of the Philippines permit, public education should be promptly established, and when established made free to all.

Eighth—The greatest care should be taken in the selection of officials for administration. They should be men of the highest character and fitness, and partisan politics should be entirely separated from the government of the Philippines.

UNITED STATES BROAD.

Majority of a House Sub-Committee Reported It Covered the New Lands Acquired.

WASHINGTON, Feb. 3.—At a special meeting of the house ways and means committee reports were received from the sub-committee, which has considered to what extent the term "United States," as used in the constitution, relates to the outlying territory recently acquired by this country.

A majority of the sub-committee, comprising the Republican members, reported in substance that congress had practically unlimited power in dealing with these territories. The minority,

SHUT OFF PETTIGREW'S SPEECH.

Point of Order Did It In Senate—Allen Arraigned Gage.

WASHINGTON, Feb. 3.—An effort by Senator Pettigrew, of South Dakota, to discuss the Philippine question in the senate was of no avail, as he was met by a point of order which took him from the floor. He had gotten only so far as to charge that the great journals of the country would not publish the facts concerning the Philippine war. Subsequently he offered another resolution, on which he will speak next week. Senator Allen, of Nebraska, concluded his speech in arraignment of Secretary Gage, because of his transactions with the National City Bank of New York. He had previously introduced a resolution providing for an investigation by the senate of the treasury department, but objection to its consideration sent it over until next week.

FORWARDED MONEY TO BOERS.

Secretary Hay Sent Contributions Collected by a St. Louis Paper.

WASHINGTON, Feb. 3.—Secretary Hay received the sum of \$750, collected by the St. Louis Westliche Post and transmitted to the department of state by Mr. Fretorius, to be used for the benefit of the widows and orphans of Boer soldiers.

The secretary forwarded the money by the mails to Adelbert Hay, United States consul at Pretoria, to be turned over to President Kruger for the purpose specified. Mr. Fretorius' letter was also sent forward. The action of the state department, it was explained, applied only to contributions for charitable objects.

Indian Appropriation Bill Considered.

WASHINGTON, Feb. 3.—The house devoted its attention to the Indian appropriation bill. It got no further, however, than the appropriations for Indian schools, where an effort was inaugurated by Fitzgerald, of New York, to permit the secretary of the interior to contract with schools for the education of Indian children where the government lacks facilities. No appropriation is made for contract schools in the bill. It is claimed the present Indian school facilities are inadequate.

TO FIGHT GENERAL BULLER.

Lady Smith Reported Besiegers Moving Toward Tugela—Methuen's Camp Probably Base For Invasion.

LONDON, Feb. 3.—4:10 a. m.—Heliograms flashed from Ladysmith three days ago say that the Boer investment lines then were thinning and that the best garrisons were moving in force toward the Tugela, indicating that a collision was expected there. This intelligence bears out other signs that General Buller purposed a fresh attack.

Lord Kitchener has been traveling from army to army in Northern Cape Colony, and General French, by instructions, is now in Cape Town consulting with Lord Roberts. Large engineering constructions are proceeding at Modder River, suggesting that Lord Methuen's fortified camp has been selected as the base from which to invade the Free State.

"General Buller's retreat," says the Cape Town correspondent of The Standard, "has resulted in a recrudescence of treasonable talk here."

It is learned that the war office intends to increase the regular army by 15 battalions of infantry, adding these to the existing regiments.

Seven Lost In Shipwreck.

WASHINGTON, Feb. 3.—The following telegram was received by Assistant Secretary Hall from United States Consul Grinnath at Brownsville, Tex.: "Schooner Melms, from Galveston for Brazos and Santiago, wrecked on the Mexican coast. Seven lives lost."

Hague Treaty Likely to Be Ratified.

WASHINGTON, Feb. 3.—The senate, in executive session, took up The Hague peace treaty. There was a brief discussion of it, but no opposition was developed. The treaty would have been ratified, but under the rule it had to lay over 24 hours after being read.

Condition of Phelps.

NEW HAVEN, Feb. 3.—There was no change in the condition of the Hon. Edward J. Phelps, ex-minister to England, who is ill with pneumonia here.

COAL SCALE SIGNED

Satisfactory to All Except Illinois People.

AN ADVANCE OF 21.21 PER CENT.

This Is What the Agreement In General Provides—Dolan Called a Meeting of No. 5 District Delegates For Feb. 13, In Pittsburg.

INDIANAPOLIS, Feb. 3.—After a joint conference, lasting nearly two weeks, the delegates from the United Mine Workers of America and the Interstate Operators' association finally adopted a scale, which is a compromise between the first demand of the former and the first offer of the latter.

The scale provides for a general advance of 21.21 per cent, and is satisfactory to operators and miners of Ohio, Pennsylvania and Indiana, but not of Illinois. Patrick Dolan, president of District No. 5, of the United Mine Workers, has called a meeting of the district delegates, to meet in Pittsburg Feb. 13.

A motion was carried to meet at Columbus, on the second Tuesday in February, 1901.

GOV. GOEBEL
SOME BETTER

FRANKFORT, Feb. 3.—Early this morning Governor Goebel was resting comfortably. His kidneys were said to be performing their functions better, obviating in a degree the danger of uraemic poisoning. Dr. Williams said he breathed entirely from his left lung; the right lung was clotted with blood, which prevented further bleeding, but later will prove somewhat a source of danger. The clotted blood will decompose in about eight days, and then it may be necessary to remove a section of a rib in order to remove the decomposed blood. The wound will then be drained and the danger then will be from secondary hemorrhage. His iron will and splendid constitution were said to be the main features in keeping him alive.

THE LAWTON FUNERAL

It Will Be Held In a Presbyterian Church, In Washington, Friday. Interment at Arlington.

WASHINGTON, Feb. 3.—After telegraphic correspondence with Mrs. Lawton, it was finally arranged that the funeral services over the remains of the late Major General Henry W. Lawton, U. S. V., shall be held in the Church of the Covenant (Presbyterian) in this city next Friday afternoon at 2 o'clock, and that the interment shall be in the national cemetery at Arlington. The religious services will be conducted by Rev. H. M. W. Stryker, president of Hamilton college, Clinton, N. Y., assisted by Rev. Dr. Hamlin, pastor of the Church of the Covenant, and other clergymen.

General Lawton and his family were members of the New York Avenue Presbyterian church, and the funeral services would have been held there but for the fact that its location was not regarded as suitable for the proper movement of the large number of troops that will participate in the ceremonies.

A telegram has been received from General Snaiter saying that the funeral party will reach here Thursday afternoon.

The total of the Lawton fund Friday was \$97,502.

ERECTING BOILERS

AT THE MILL IS VERY SLOW WORK.

Twenty-Five Cars of Cinders Used Daily in Ballasting Cumberland Extension.

Everything possible is being done by officers of the Chester Rolling Mill to have the boilers placed in position within the next three weeks. This work is very tedious and as the boilers are unusually heavy, placing them in position is necessarily slow. Some small machinery has been put in position but the hardest work is yet to come.

Tomorrow's Church Services.

C. S. Manor, of Liverpool, will conduct services at the Chester United Presbyterian church tomorrow afternoon at 3:30 o'clock.

The services tomorrow afternoon at the Methodist Episcopal chapel in the school house will be conducted by Rev. Clark Crawford, of the First Methodist Episcopal church of Liverpool. The attendance of all Methodists is earnestly requested.

No Compromising.

Gov. Atkinson has addressed letters to all the prosecuting attorneys of the state informing them that all fines imposed by the courts must be collected; that the practice of compromising on the number of indictments is a direct violation of the statutory law.

Cutting More Ice.

Yesterday afternoon W. H. Riley, J. W. and Harry Finley commenced to cut some ice in the river below the bridge. During the last cold snap these men succeeded in storing over 200 tons of ice, and as much, if not more, will be cut and stored this time.

Three Converts.

At the revival services at the Chester Free Methodist church last evening there were three converts. Since the meetings started, the interest has been steadily increasing, and they may be continued throughout next week.

Removed the Pump.

The portable steam pump stationed on the river bank above the bridge for several months and used by Contractor McNalley to pump water from the river to the tank on the county road, has been removed and sent to Uniontown.

Twenty-five Cars a Day.

The cinders that are being used in ballasting the extension of the Cumberland branch are being brought from the Dennison roundhouse. About 25 cars of cinders are being brought from the shops daily.

Wine of Cardui

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Boisvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it?

WINE OF CARDUI

Woman Knows Woman.

ZURICH, KAN., Jan. 31.
I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.

MRS. V. M. BOISVERT.

WINE OF CARDUI

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Boisvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it? Is it any wonder that thousands of other women recommend it?

TRIPLE PRICE IS PAID FOR TELEPHONES

High Rate Follows the
Consolidation In
Detroit.

Effect of the Purchase of
Independent Lines In
That City.

Bettering of the Service
Given as Excuse For
Exorbitant Rates.

DETROIT, Jan. 31.—The Detroit Journal of Friday, Jan. 26, says editorially: "When the practical consolidation of the telephone companies was effected the management made public the announcement that the rates would not be advanced as a consequence; but on the contrary, that the rates would remain undisturbed while the service would be greatly improved. As proof of the sincerity of the announcement flaming advertisements were published once in all the daily papers, offering to close twenty-five year contract at prevailing rates.

"Within a fortnight of the consummation of the deal, and with the advertisement still fresh in mind, the Michigan Bell Co. is making a systematic and strenuous canvass of the local field for the purpose of persuading subscribers to the prevailing service to apply for a better service at the rate of \$72 a year, exactly three times the rate named for the service now given. In explanation of this crusade for the higher priced service the officers of the company submit that they are about to install a 'new switchboard' and that the higher priced phones will be directly connected with the long distance system, thereby securing to patrons greater convenience.

"It cannot be that this is the first step taken to provide a better service, for both President Flowers and President Glidden are on record against any increase of price for bettering the service, yet there is something about it suggestive of the way of the heathen Chinese, whose ways are dark and tricks vain. The inducement held out that the new 'phone will be connected with the long distance service is not enticing to the average subscriber, for the average subscriber has use for a long distance service only once a year, if so frequently, and business subscribers on the metallic circuit are already served satisfactorily. It is represented, however, that the new 'phone will be much superior to the old, although the old 'phone will be maintained, but its connection with the 'new switchboard' will be incomplete and the service will not be at the best.

"One cannot, in view of all the circumstances, see in this new enterprise anything less than a subterfuge under which the monopoly, having got control of the field, purposes to treble the price of telephone service. It will do this, doubtless, by persuading business firms and rich individual subscribers to take the superior service at the higher price and then by making the cheaper service inferior and unsatisfactory, drive others to subscribe for the \$72 service. If this be not the real purpose, why do the officers who, a fortnight ago, were promising that the service would be improved and the rates not disturbed, now publicly admit that the service of the cheaper

'phone will be unsatisfactory because a new 'switchboard' is to be installed?

"It looks very much as if the monopoly meant to extort from telephone subscribers in this city the money it invested in the Detroit telephone plant and to do it without delay. Notwithstanding fair promises it has already begun to manipulate the situation and the outcome of its efforts will unerringly be that the people will pay the company's price, \$72 a year, or do its talking face to face or through its hat. The telephone monopoly is not in the local field for its health. If it cannot carry its point by suavity, plausibility and other arts of business diplomacy, it will ultimately throw off the mask and command the public to pay its price. That's what a monopoly is formed for; that's what its owners and bosses get it built for."

MISS ALLIE LAUGHLIN

Will Direct an Entertainment
Rich and Delightful at
Grand Opera House.

The many friends and acquaintances of Miss Allie Laughlin delight to do her honor for her unselfishness in giving her services for any and every charitable measure which has been brought prominently before the public of East Liverpool in the matter of entertainments, and they purpose giving her a royal reception on Thursday night, February 8th, at the Grand Opera House, when she is to appear in selections of song, assisted by notable talent from adjoining cities. This entertainment has the promise of being a genuine treat to music lovers, and you should not be tardy in securing choice seats, but be on hand promptly when reserved seats are placed on sale. The personal friends of Miss Laughlin are rejoicing over the fact that tickets for her reception are going off like the proverbial 'hot cakes.' Take one for yourself, and don't forget your friends.

EAST LIVERPOOL, O. SATURDAY, FEB. 3.

FOR PRESIDENT--Second Term.
WM. MCKINLEY,
Of Ohio.

MAKE YOUR CHOICE.

Republicans of East Liverpool have the opportunity of a lifetime. They have the power to nominate a man for the berth of chief magistrate of this city who will pay full and due regard to his oath of office and enforce the law to the letter. He must not be a PERSECUTOR. He must be simply an EXECUTIVE, carrying into effect the laws and ordinances which the legislative body has placed in his care for that specific purpose. No true and law abiding and honorable or desirable citizen of East Liverpool will object to such procedure on the mayor's part. An honorable and upright council will sustain the mayor in such enforcement of law. It will not do for the Republican party to nominate a weakling or an unfair or dishonorable man. Men who love the party will be careful and considerate and mass and unite in favor of a man who will command the respect and esteem of all good citizens and prove a terror to evil-doers, making our city prominent and quoted all over the land.

And the position of marshal should fall upon a good and true citizen—a man who cannot be bought and sold at will, a man who will work in harmony with the chief executive and aid him in every honorable and legal endeavor for the enforcement of the laws and ordinances.

You have good and true men now in the field, gentlemen of the Republican party. Act wisely and well. Make your choice.

AUSTRALIAN SYSTEM.

By all means, leaders of the Republican party having control of the coming primary, act in good faith and make use of the Australian system of casting ballots. Make it next door to impossible for trickery and chicanery to accomplish their evil intent.

YOUR Uncle Sam leads the world in machines, from the sewing to the political.

THE EDISON HOME PHONOGRAPH

PRICE \$30.00.

A COMPLETE talking and musical machine that does the same work as the high priced instruments, and superior to all the cheap machines for music. It is simple in construction, easy to operate and costless to maintain. Equipped with a spring motor that runs six records with a single winding.

Made of steel, iron and brass throughout. No soft metal or composition. Finished in black enamel and gold, encased in oak box with illuminated oak cover, forming complete carrying case. Size 8 in. x 16½ in. x 12 in. high.

Weight 25 lbs. Anybody can operate it. Full printed directions packed with each machine. Will record, will produce, will shave off. Fitted with instantaneous speaker clamps for instant interchange of speakers.

Two speakers are included free of charge, with every Edison Home Phonograph; the Edison Automatic Reproducer, and the Edison Recorder; also a sapphire shaving knife, an oak body box, oak cover, a 14-inch polished brass horn, a two-way hearing tube, a winding crank, an oil can and a camel's hair chip brush.

These parts are essential to a perfectly equipped and complete talking machine. The Home is only complete as above. The only change we make is to substitute a speaking tube for the 14-inch polished brass horn, if so desired.

PLEASANT PARTY.

We Have a Poet of No Mean Pretensions In This Pottery Center.

Mr John McShane entertained the Glee club last evening, at his home on Avondale street. The features of the evening were singing and speaking. A beautiful cuff box was given as a prize to the best singer. Misses Detemple and Ferren and Mr. Weaver were appointed judges in the contest. Mr. Weaver recited a poem composed by Mr. Owens which demonstrated the fact that Mr. Owens is a second edition of Byron. Messrs. Shinkle and Owens also gave recitations, but Mr. Jones proved to be superior to all, both in singing and speaking, and was successful in carrying off the prize. Refreshments were served and a delightful time was had.

Ross Meadows

Is the name of a farm situated 1½ miles from the city limits, at the junction of Liverpool and Lisbon and Wellsville and Cannons Mills public roads. The surface is comparatively level and the farm is said to be one of the "best lying" in the county. We are subdividing it into 2½ acre plots. You can buy as much as you want. Just the place for a country home. Prices per acre are low. Call at office and see plats.

THE HILL REAL ESTATE CO.,

INTEREST UNABATED.

There Was a Large Attendance at the Christian Church Last Night.

The saying of the bridegroom of Cana "Thou hast left the best wine until now" might well be said of last night's evangelistic meeting at the Christian church. The attendance was larger than for any evening since Sunday. The praise service was very profitable and enjoyable. The singing throughout was splendid. When Reverend Williams sang the solo, "Beautiful Beckoning Hands" it brought tears to the eyes of many. The thought of his sermon was that none are so bad that Christ cannot save them and none are so good that they can be saved without Christ. He used as illustrations the conversion of Paul and the conversion of Cornelius. No meeting tonight but services will be held each next week.

A NEW LINE.

Water Mains Will Be Extended to the Lands of the Grandview Company.

The water works trustees last evening granted the Grandview Land company the privilege to extend the water mains to their property, provided they paid the cost. Any others who connect to the line with a main are expected to reimburse the land company and the city will redeem the main from the company out of the income derived from the water consumers. A number of bills were ordered paid.

TO SUBSCRIBERS.

Some of our carriers have been sick, and Mr. Sylvies, our circulation agent, has been a sufferer from a severe cold, and was last night compelled to remain at his home. This series of misfortunes has resulted in having some of our subscribers miss their papers for the past few evenings. Bear with us patiently, gentlemen and ladies, and we shall give you better service than ever in our history.

Extensive Trading In Railroad Stocks. Heavy Absorption of Bonds. Other Features.

New York, Feb. 3.—The stock speculation Friday furnished adequate proof that increased interest was being manifested by the public in the market. This supposition was based on the extensive trading in railroad stocks, which comprised properties traversing a wide area.

Important movements appeared to be under way by substantial interests, as Friday's strength developed in first one group of railroad stocks and then another until the last showed gains running from 1 to 3½ points. In connection with the enormous buying of the Baltimore and Ohio stocks, a statement that the management had sold \$8,600,000 4 per cent bonds of the road and \$2,500,000 of that of a subsidiary line to provide improvements accounted for their buoyant price.

Early operation indicated that powerful interests were engaged in the metal stocks, as prices of the minor securities followed a jump of 8 points in Tennessee coal to 104. This stock suffered acutely from realization as the day progressed and ended with a gain of but 3¼. Prices of kindred properties were better sustained, but all relapsed from the best figures.

Among the high priced industries, American Tobacco, People's Gas and Solar achieved a commanding lead occasionally, but ended with narrow net changes. Predictions as to the character of today's bank statement were uniformly favorable, but the advance statistics show that the gain in cash from the receipts from the interior and sub-treasury operations were placed at \$2,871,118, as compared with a net gain in the previous week of \$6,189,176.

A reflection of the stock market's strength was observed in the bond operations, where the absorption was very heavy, of the low and middle grade issues. The market was broad and active, transactions aggregating a par value of \$2,380,000.

EAST LIVERPOOL, O. SATURDAY, FEB. 3.

FOR PRESIDENT—Second Term.
WM. M'KINLEY,
Of Ohio.

MAKE YOUR CHOICE.

Republicans of East Liverpool have the opportunity of a lifetime. They have the power to nominate a man for the berth of chief magistrate of this city who will pay full and due regard to his oath of office and enforce the law to the letter. He must not be a PERSECUTOR. He must be simply an EXECUTIVE, carrying into effect the laws and ordinances which the legislative body has placed in his care for that specific purpose. No true and law abiding and honorable or desirable citizen of East Liverpool will object to such procedure on the mayor's part. An honorable and upright council will sustain the mayor in such enforcement of law. It will not do for the Republican party to nominate a weakling or an unfair or dishonorable man. Men who love the party will be careful and considerate and mass and unite in favor of a man who will command the respect and esteem of all good citizens and prove a terror to evil-doers, making our city prominent and quoted all over the land.

And the position of marshal should fall upon a good and true citizen—a man who cannot be bought and sold at will, a man who will work in harmony with the chief executive and aid him in every honorable and legal endeavor for the enforcement of the laws and ordinances.

You have good and true men now in the field, gentlemen of the Republican party. Act wisely and well. Make your choice.

AUSTRALIAN SYSTEM.

By all means, leaders of the Republican party having control of the coming primary, act in good faith and make use of the Australian system of casting ballots. Make it next door to impossible for trickery and chicanery to accomplish their evil intent.

YOUR Uncle Sam leads the world in machines, from the sewing to the political.

THE EDISON HOME PHONOGRAPH

PRICE \$30.00.

A COMPLETE talking and musical machine that does the same work as the high priced instruments, and superior to all the cheap machines for music. It is simple in construction, easy to operate and costless to maintain. Equipped with a spring motor that runs six records with a single winding.

Made of steel, iron and brass throughout. No soft metal or composition. Finished in black enamel and gold. Encased in oak box with illuminated oak cover, forming complete carrying case. Size 8 in. x 16½ in. x 12 in. high. Weight 25 lbs. Anybody can operate it. Full printed directions packed with each machine. Will record, will produce, will shave off. Fitted with instantaneous speaker clamps for instant interchange of speakers.

Two speakers are included free of charge, with every Edison Home Phonograph; the Edison Automatic Reproducer, and the Edison Recorder; also a sapphire shaving knife, an oak body box, oak cover, a 14-inch polished brass horn, a two-way hearing tube, a winding crank, an oil can and a camel's hair chip brush.

These parts are essential to a perfectly equipped and complete talking machine. The Home is only complete as above. The only change we make is to substitute a speaking tube for the 14-inch polished brass horn, if so desired.

PLEASANT PARTY.

We Have a Poet of No Mean Pretensions In This Pottery Center.

Mr John McShane entertained the Glee club last evening, at his home on Avondale street. The features of the evening were singing and speaking. A beautiful cuff box was given as a prize to the best singer. Misses Detemple and Ferren and Mr. Weaver were appointed judges in the contest. Mr. Weaver recited a poem composed by Mr. Owens which demonstrated the fact that Mr. Owens is a second edition of Byron. Messrs. Shinkle and Owens also gave recitations, but Mr. Jones proved to be superior to all, both in singing and speaking, and was successful in carrying off the prize. Refreshments were served and a delightful time was had.

INTEREST UNABATED.

There Was a Large Attendance at the Christian Church Last Night.

The saying of the bridegroom of Cana "Thou hast left the best wine until now" might well be said of last night's evangelistic meeting at the Christian church. The attendance was larger than for any evening since Sunday. The praise service was very profitable and enjoyable. The singing throughout was splendid. When Reverend Williams sang the solo, "Beautiful Beckoning Hands" it brought tears to the eyes of many. The thought of his sermon was that none are so bad that Christ cannot save them and none are so good that they can be saved without Christ. He used as illustrations the conversion of Paul and the conversion of Cornelius. No meeting tonight but services will be held each next week.

A NEW LINE.

Water Mains Will Be Extended to the Lands of the Grandview Company.

The water works trustees last evening granted the Grandview Land company the privilege to extend the water mains to their property, provided they paid the cost. Any others who connect to the line with a main are expected to reimburse the land company and the city will redeem the main from the company out of the income derived from the water consumers. A number of bills were ordered paid.

STREET CAR PATRONS

Think the Company Should Have Conductors.

A LOCAL LEGAL LIGHT

Is of the Opinion That the Company Can Not Make the Passengers Pay Fare Until a Demand Is Made on Them to Do So. He Gives the Law on the Subject.

There is a general demand that the street car company put conductors on their cars and keep them there for all time to come.

A prominent attorney in speaking of the matter today said: "It is a decided imposition to ask patrons of the company to walk to the front of the car every time they need change and stand there for some time trying to attract the attention of the motorman. It is not so bad in the case of younger people but when it comes to old and infirm people it is not at all the proper thing. The children who travel on the cars should be looked after and the conductor would add greatly to their safety in getting off and on the cars."

"I see there has been a great deal of stir recently about the drunken people that ride on the cars and make life miserable for the rest of the patrons. If the cars had conductors this thing would soon stop."

"Candidly, I don't think the street car company can compel the patrons to pay fare unless there is a conductor, and I base my reason on Section 6983, R. S. O., which says: 'Whoever, being requested by an employee of a street railroad company, or by an employee of a person operating a street railroad, to desist from smoking on or in a passenger car running on such road, fails to immediately do so, or whoever uses obscene, profane or indecent language, or engages in a quarrel, on or in such car, or without permission takes a dog on or in such car, or fails, on demand, to pay the proper fare on or in such car by delivering the money or a ticket, or depositing the same in a fare box as required by such employee, shall be fined not more than ten dollars, with costs of suit, and imprisoned until the fine and costs are paid; but in demand of such fare, the person of whom demand is made may immediately leave the car instead of paying the same.'

"You will notice by the statute that it says whoever fails to pay their fare on demand shall be fined, etc. Now, these fare boxes don't constitute a demand, and if the patrons of the line would pay no attention to them for a time, the company wouldn't lose very much time in putting on conductors. I understand the matter has been discussed by Trades and Labor council, but they took no action in the matter, preferring to let the Motormen's union take the initiative. I, for one, sincerely hope the street railway company will take some action in the matter pretty soon."

Married in Salineville.

Miss Lizzie B. McCollough, daughter of Mr. and Mrs. James McCollough, Salineville, was married at the home of her brother, Mr. James F. McCollough, January 31, at 3 p. m., to Mr. John M. McAllister, of East Liverpool, Rev. M. W. Simpson officiating. Mr. and Mrs. McAllister left on the evening train for East Liverpool, where they will go to housekeeping at once, where Mr. McAllister has an excellent position in one of the potteries. Those witnessing the ceremony aside from the relatives of the bride were Mr. James Russell and wife, of Salineville, and Miss Blazar, of East Liverpool.—Salineville Banner.

TO CARE FOR THE SMALL-POX PATIENT.

Board of Health Didn't Meet Last Night—The Monthly Report of Officers.

It costs money to have the smallpox and if you can get a physician for less than \$10 per day you are to be considered lucky.

The board of health didn't meet last night but Dr. R. J. Marshall had a bill for 18 days' services taking care of Thomas Putnam at \$10 per day making a total of \$180. Putnam is the East End man who had the smallpox, and it is understood the board agreed to pay Marshall the large fee. The other bills were James Murphy, \$125; J. H. Burgess, \$50; C. B. Ozden, \$25.

The report of the sanitary officer shows that he ordered 22 nuisances abated, inspected 29 typhoid fever cases, famigated two diphtheria patients and one scarlet fever and buried four dead dogs.

The report of Health Officer Ogden for the month is as follows: Births, males 19, females 23; deaths, males 7, females 10; causes of death, concussion of the brain; typhoid fever, 3; pneumonia, 3; bronchitis, 2; heart disease, 2; intestinal obstruction, cancer, convulsions, Bright's disease, grip, enteritis.

During the month 29 cases of typhoid, two of scarlet and one of diphtheria were reported.

WEEK'S POTTERY NEWS

New Committees of the U. S. Potters' Association.

PROMPT ATTENTION PROMISED

By the Manufacturers to the Brotherhood's Wage Scale Proposal—Six Firms Not Represented at Pittsburg Meeting The News of the Ceramic Industry.

At the joint meeting of the manufacturers and operatives held at Pittsburg this week the manufacturers were represented by the executive committee of the United States Potters' association. They were: Col. John M. Taylor, of K, T & K., chairman; Frank Sebring, Sebring Pottery company; Henry Brunt, Edwin Bennett Pottery company, Baltimore; Daniel Willett, Willett Manufacturing company, Trenton; W. L. Smith, D. E. McNicol Pottery company; C. W. Franzheim, Wheeling Pottery company; Thomas Grey, East Boston Pottery company, Boston, Mass., and Secretary H. A. Keffer.

The committee of the potters to confer with the Interstate Commerce commission regarding unjust freight rate classification are: President, C. W. Franzheim; secretary, H. A. Keffer, and J. A. Campbell, of the Trenton Potteries company, Trenton, N. J.

MUCH BETTER SPIRIT

Than Ever Before Shown at the Potters' and Operatives' Meeting.

The Commoner and Glassworker in speaking of the manufacturers at Pittsburg says: "Regarding the joint meeting at the Hotel Henry, it may be said that while it was short and to the point, it was cordial and a much better spirit than was ever before shown was prevalent. On taking the list under consideration the manufacturers promised prompt attention and that they would report back to a meeting at an early date, which meeting will be at the call of the chairman."

NOTES OF THE PLANTS.

And Other Items That Will Interest the Pottery Trade.

Four glost kilns were drawn this week at the pottery, which means a remarkable record.—Salem Herald.

Ed. McCarron, formerly employed at Laughlin's, is now with the Union. Hugh Jolly is a new turner at the Dresden.

Bob Hawkins is now general manager of the Union.

The Owens Pottery company are still trying to purchase that tract of land near Philadelphia. If they succeed they will erect a pottery and make the same class of ware as they make at their Zanesville plant.

The American China company has entered suit against the voluntary auxiliary to Allegheny lodge, Elks, for \$2,000. The claim is for dishes broken and lost during the Elks' carnival in Allegheny last summer.

At a recent meeting of the stockholders of the Riverside Pottery company, Wheeling, a 50 per cent stock dividend was declared.

The Lyons pottery at Lyons, N. Y., has been closed by the sheriff. It had an annual output of 750,000 gallons of stoneware.

There was a gradual increase of new business in this city during the month of January.

Six Firms Absent.

Among those not represented at the annual meeting of the potters were: George Scott's Sons, of Cincinnati; Bell Pottery company, Findlay; Crown Pottery company, Evansville; Peoria Pottery company, Peoria; Wick China company, Kittanning, and the Ford China company, Ford City, Pa.

HAYES FIGHTS ON.

BEATEN IN COMMON PLEAS AND CIRCUIT COURTS,

He Files a Supplemental Pleading Asking Mandatory Injunction.

LISBON, Feb. 3.—[Special]—The Circuit court this morning refused to grant the temporary injunction sought by Albert Hayes, of Salem, to restrain the Columbiana County Telephone company from erecting a pole in front of his property on Lundy street, Salem. As the pole is up and wires strung, the court held the company could not be restrained from doing what it had already done.

Hayes will file a supplementary pleading asking for a mandatory injunction to compel the company to remove the pole and wires. This, however, will not be decided until the next term of court.

The Circuit court's decisions in the other cases heard at this sitting are expected Monday.

COMING ATTRACTIONS.

"The Bells,"

Presented by the Shea company at the Grand last night, was a splendid production, and delighted the large audience. Tonight the company will play "Southern Chimes."

"Eight Bells,"

Which comes to the Grand Monday evening, is one of the best shows traveling, and should be greeted by a packed house.

"Two Married Men"

Have received splendid press notices everywhere they have played this year. At the Grand Tuesday evening.

Blondell and Fennessy

Have added Jerome and Alexis to their company since they were here and the specialties in "A Cheerful Idiot" Wednesday night will be something fine.

GEN. LOGAN'S OLD POST.

The Major's Remains to Lie in State, in the Hall at Tendered in Chicago. Escort For Lawton's Body.

CHICAGO, Feb. 3.—Major John A. Logan's remains, enroute from San Francisco to their final resting place in Youngstown, O., will lie in state in Chicago, Monday afternoon, at Memorial hall, tendered by U. S. Gen. post, G. A. R., which claimed Gen. John A. Logan as a member.

There will be no attempt at a local demonstration in honor of General Lawton, on account of the expected short interval between the arrival of his body and its transfer to the Pennsylvania's train, Monday afternoon. Two hundred members of Illinois commandery, Loyal Legion, Captain Henry V. Freeman commanding, will act as escort. General Lawton's body will lie in state Tuesday, at Fort Wayne and Indianapolis.

General Wade, in command of the department of the lakes, has selected a detachment from the Seventh United States infantry at Fort Wayne, Detroit, and regimental band to attend Major Logan's funeral in Youngstown, Tuesday.

STREET CAR PATRONS

Think the Company Should Have Conductors.

LOCAL LEGAL LIGHT

Is of the Opinion That the Company Can Not Make the Passengers Pay Fare Until a Demand Is Made on Them to Do So He Gives the Law on the Subject.

There is a general demand that the street car company put conductors on their cars and keep them there for all time to come.

A prominent attorney in speaking of the matter today said: "It is a decided imposition to ask patrons of the company to walk to the front of the car every time they need change and stand there for some time trying to attract the attention of the motorman. It is not so bad in the case of younger people but when it comes to old and infirm people it is not at all the proper thing. The children who travel on the cars should be looked after and the conductor would add greatly to their safety in getting off and on the cars."

"I see there has been a great deal of stir recently about the drunken people that ride on the cars and make life miserable for the rest of the patrons. If the cars had conductors this thing would soon stop."

"Candidly, I don't think the street car company can compel the patrons to pay fare unless there is a conductor, and I base my reason on Section 6983, R. S. O., which says: 'Whoever, being requested by an employee of a street railroad company, or by an employee of a person operating a street railroad, to desist from smoking on or in a passenger car running on such road, fails to immediately do so, or whoever uses obscene, profane or indecent language, or engages in a quarrel, on or in such car, or without permission takes a dog on or in such car, or fails, on demand, to pay the proper fare on or in such car by delivering the money or a ticket, or depositing the same in a fare box as required by such employee, shall be fined not more than ten dollars, with costs of suit, and imprisoned until the fine and costs are paid; but in demand of such fare, the person of whom demand is made may immediately leave the car instead of paying the same.'

"You will notice by the statute that it says whoever fails to pay their fare on demand shall be fined, etc. Now, these fare boxes don't constitute a demand, and if the patrons of the line would pay no attention to them for a time, the company wouldn't lose very much time in putting on conductors. I understand the matter has been discussed by Trades and Labor council, but they took no action in the matter, preferring to let the Motormen's union take the initiative. I, for one, sincerely hope the street railway company will take some action in the matter pretty soon."

Married in Salineville.

Miss Lizzie B. McCollough, daughter of Mr. and Mrs. James McCollough, Salineville, was married at the home of her brother, Mr. James F. McCollough, January 31, at 3 p. m., to Mr. John M. McAllister, of East Liverpool, Rev. M. W. Simpson officiating. Mr. and Mrs. McAllister left on the evening train for East Liverpool, where they will go to housekeeping at once, where Mr. McAllister has an excellent position in one of the potteries. Those witnessing the ceremony aside from the relatives of the bride were Mr. James Russell and wife, of Salineville, and Miss Blazer, of East Liverpool.—Salineville Banner.

TO CARE FOR THE SMALL-POX PATIENT.

Board of Health Didn't Meet Last Night—The Monthly Report of Officers.

It costs money to have the smallpox and if you can get a physician for less than \$10 per day you are to be considered lucky.

The board of health didn't meet last night but Dr. R. J. Marshall had a bill for 18 days' services taking care of Thomas Putnam at \$10 per day making a total of \$180. Putnam is the East End man who had the smallpox, and it is understood the board agreed to pay Marshall the large fee. The other bills were James Murphy, \$125; J. H. Burgess, \$50; C. B. Ogden, \$25.

The report of the sanitary officer shows that he ordered 22 nuisances abated, inspected 29 typhoid fever cases, famigated two diphtheria patients and one scarlet fever and buried four dead dogs.

The report of Health Officer Ogden for the month is as follows: Births, males 19, females 23; deaths, males 7, females 10; causes of death, concussion of the brain; typhoid fever, 3; pneumonia, 3; bronchitis, 2; heart disease, 2; intestinal obstruction, cancer, convulsions, Bright's disease, grip, entro colitis.

During the month 29 cases of typhoid, two of scarlet and one of diphtheria were reported.

The committee of the potters to confer with the Interstate Commerce commission regarding unjust freight rate classification are: President, C. W. Franzheim; secretary, H. A. Keffer, and J. A. Campbell, of the Trenton Potteries company, Trenton, N. J.

MUCH BETTER SPIRIT

Than Ever Before Shown at the Potters' and Operatives' Meeting.

The Commoner and Glassworker in speaking of the manufacturers at Pittsburg says: "Regarding the joint meeting at the Hotel Henry, it may be said that while it was short and to the point, it was cordial and a much better spirit than was ever before shown was prevalent. On taking the list under consideration the manufacturers promised prompt attention and that they would report back to a meeting at an early date, which meeting will be at the call of the chairman."

NOTES OF THE PLANTS.

And Other Items That Will Interest the Pottery Trade.

Four glost kilns were drawn this week at the pottery, which means a remarkable record.—Salem Herald.

Ed. McCarron, formerly employed at Laughlin's, is now with the Union.

Hugh Jolly is a new turner at the Dresden.

Bob Hawkins is now general manager of the Union.

The Owens Pottery company are still trying to purchase that tract of land near Philadelphia. If they succeed they will erect a pottery and make the same class of ware as they make at their Zanesville plant.

The American China company has entered suit against the voluntary auxiliary to Allegheny lodge, Elks, for \$2,000. The claim is for dishes broken and lost during the Elks' carnival in Allegheny last summer.

At a recent meeting of the stock holders of the Riverside Pottery company, Wheeling, a 50 per cent stock dividend was declared.

The Lyons pottery at Lyons, N. Y., has been closed by the sheriff. It had an annual output of 750,000 gallons of stoneware.

There was a gradual increase of new business in this city during the month of January.

Six Firms Absent.

HAYES FIGHTS ON.

BEATEN IN COMMON PLEAS AND CIRCUIT COURTS,

He Files a Supplemental Pleading Asking Mandatory Injunction.

LISBON, Feb. 3.—[Special]—The Circuit court this morning refused to grant the temporary injunction sought by Albert Hayes, of Salem, to restrain the Columbiana County Telephone company from erecting a pole in front of his property on Landy street, Salem. As the pole is up and wires strung, the court held the company could not be restrained from doing what it had already done.

Hayes will file a supplementary pleading asking for a mandatory injunction to compel the company to remove the pole and wires. This, however, will not be decided until the next term of court.

The Circuit court's decisions in the other cases heard at this sitting are expected Monday.

GEN. LOGAN'S OLD POST.

The Major's Remains to Lie in State, in the Hall it Tendered in Chicago, to Escort For Lawton's Body.

CHICAGO, Feb. 3.—Major John A. Logan's remains, enroute from San Francisco to their final resting place in Youngstown, O., will lie in state in Chicago, Monday afternoon, at Memorial hall, tendered by U. S. Grant post, G. A. R., which claimed Gen. John A. Logan as a member.

There will be no attempt at a local demonstration in honor of General Lawton, on account of the expected short interval between the arrival of his body and its transfer to the Pennsylvania's train, Monday afternoon. Two hundred members of Chicago's commandery, Loyal Legion, Captain Henry A. Freeman commanding, will act as escort. General Lawton's body will lie in state Tuesday, at Fort Wayne and Indianapolis.

General Wade, in command of the department of the lakes, has selected a detachment from the Seventh United States infantry at Fort Wayne, Detroit, and regimental band to attend Major Logan's funeral in Youngstown, Tuesday.

ARMED CLASH FEARED.

The Kentucky Democrats May Organize Militia.

APPREHENSION OF TROUBLE TODAY

Judge Cantrill Very Likely to Issue Restraining Order Against Taylor, Which He Probably Will Ignore—A Wouldbe Summons-server Imprisoned.

FRANKFORT, Ky., Feb. 3.—There can no longer be any concealment of the fact that affairs in this state are bordering upon conflict in arms, and the beginning of the crisis is at hand. It may be that the political difficulties will be settled by the courts of law, but the hearts of men are hot in Kentucky now and legal process may provide a remedy too dilatory to please a few of the more impatient, and it is in the power of these to create a world of woe at almost any time.

Alonzo Walker, a stenographer employed by the Democratic attorneys, was placed under arrest in the capitol grounds, charged with conduct intended to incite mutiny and riot. The conduct consisted in pinning to the door of the private office of Governor Taylor a notice that today the Democratic attorneys would appear before Judge Cantrill, of the circuit court, and ask for an injunction restraining Governor Taylor from all interference with the movements of the legislature and from his announced attempt to remove it to London, in this state. Walker was at once taken into custody by orders of Colonel Roger Williams, the commanding officer of the forces now gathered around the capitol.

The Democrats filed a long petition stating their side of the case. Service was secured, despite the most stringent orders to the sheriffs to allow nobody to pass in or out of the capitol grounds. Orders to this effect were given early in the morning, but were revoked later, and those having passes were allowed free access to all parts of the capitol square.

As soon as word was brought to Governor Taylor that the petition for the injunction had been filed, the orders were renewed, but they were not renewed quick enough. Alonzo Walker, soon gained an entrance to the grounds before the renewal of the order, and watching his chance, pinned a copy of the notice on the door of the executive mansion, which action constituted a legal notice to Governor Taylor. Walker was at once placed under arrest and is now in the guard house.

There is no doubt that the injunction will be granted. Judge Cantrill has the reputation of being a man who will attempt by all means in his power to enforce the rulings handed down from his bench. He will most certainly use all the power in his hands to secure the operation of his injunction. It is equally certain that the Republicans will pay no attention to Judge Cantrill or his writs. The Democrats claim that the action of the Republicans in arresting Walker while he was attempting to carry out the orders of the court, has placed them in contempt of court, and they will make all of the point possible.

A clash may come when the officers of the court attempt to force the rulings of its presiding judge. Behind this judge the Democrats will have today, for the first time, an active executive head in the person of Acting Governor Beckham and, from the Democratic standpoint, a regularly appointed adjutant general, whose orders the troops now encamped around the capitol building are bound to obey. If they decline to obey, the new adjutant general will, the Democrats claim, have the power to organize military forces of his own and proceed against all people who defy the authority of his office and that of the governor of the state, whom he represents.

On the other hand, the Republicans are fixed in their attitude that there is an insurrection in the state, that Beckham and his actions, his adjutant general and his orders are those of people acting in opposition to law. They believe that they alone are in the right, and as there can be but one right and all else wrong, those who show resistance to the proclamations of Governor Taylor are in rebellion against the commonwealth. They will resist any attempt of any kind to remove them from their position around the capitol, meeting force with force, and that means civil war.

GOEBEL AS GOVERNOR.

Democratic Legislators Met and Affirmed Action of Both Houses—Will Not Resist Arrest.

FRANKFORT, Ky., Feb. 3.—The Democratic members of the legislature met in a secret caucus at the capitol hotel and re-elected William Goebel as governor

and J. C. W. Beckham lieutenant governor of Kentucky. This action was first taken by the houses in separate session and immediately afterwards in joint session.

The members of the senate elected as president pro tem, Senator Carter, who was nominated for that position at a recent caucus.

A committee of the members of the house, composed of Representatives Finn, Lattery and Cochran, was also appointed to draw up a set of resolutions showing the condition of affairs as it exists at the state capital, and covering thoroughly the Democratic side of the controversy. These resolutions will be formally presented to the next session of the Democratic members of the legislature, to be held Monday.

Though none of those who attended the caucus cared to discuss the matter, it seems to be well understood among the Democratic members of the legislature that the session at London will be ignored altogether by them and that no Democrat will attend "until compelled to do so." It was practically decided that no more demands will be made to hold sessions of the legislature in the state house by the Democratic members in a body, who will, however, continue to hold sessions at some convenient place, until the political atmosphere has cleared.

If arrests are attempted, no resistance will be made by the Democrats, either to arrest or to attending the session at London should they be arrested.

EPWORTH LEAGUE.

Topic For the Week Beginning Feb. 4, "Things That Endure." Text, Math. vii, 21-27.

"It fell not, for it was founded upon a rock."

It does not take long for even a child to learn the difference between rock and sand foundations. Playhouses in the sand are ruined after a heavy shower, and a few repetitions of the experience are enough to teach the most ignorant to look for a better place.

It is equally plain to those who are teachable that "no lie prospers," yet men keep on trying to make great schemes stand on the quicksands of falsity. Collapse is inevitable. Happiness is with great skill built upon impurity and lust, with the false hope that it will endure. No cyclone is needed to demolish the structure. It crumbles into shapeless and irretrievable ruin by its own weight. The foundation gives out from under.

When Sir Christopher Wren was called upon to rebuild St. Paul's cathedral, London, he planned to place the new building on slightly different lines from the old one. All went well till they came to lay the foundations for the northeast corner. The hard brick earth on which the rest of the building rested had at some time previous been removed from here. He lacked only six feet to complete his design. Some counseled him to drive piles through the sand and gravel to the hard earth below. He knew better than to risk his building so. He made a crib of plank 18 feet square and dug till he struck the hard beach of the Thames at low water mark, 40 feet below surface, bored the beach till he came to original clay, then built a pier of solid masonry ten feet square almost to the surface and turned an arch from it to the original wall of the old church, and on this the northeast corner of St. Paul's rests secure.

You cannot always do as the fathers did in bygone years, but when you get off the old lines be sure your building bottoms on original clay or rock below all shifting sand or gravel.

Put It Down.

John Wesley kept a strict cash account until the very last months of his life and gave it up at last only when failing eyesight and strength compelled him, writing then as his last entry, "I am convinced I save all I can and give all I can."

It is surprising when a person begins to keep careful account of all expenditures how much more cash goes for "incidentals" and little things than was suspected. It is as surprising to most people, also, how small the "benevolent account" looks on paper compared with what it was thought to be before it was watched.

One of the principal advantages in keeping the account of gifts to the church and to the various charitable causes is found in the increased interest aroused in ourselves in them and the pleasure with which we respond to a sudden call for aid when we have a special fund to draw on instead of having to draw from the ordinary purse from which we pay for most things.

One of the most enjoyable things pos-

sible is for a person receiving wages or any income to regularly lay aside a definite sum to be used only in God's work and then invest it to the best advantage for Him.

The Parables In Art.

The artists of ancient and modern times have done much to make the Bible teachings plain and striking. Epworth Leaguers should study pictures. Never before were the world's treasures of art so accessible as now. Reproductions of excellent quality are now to be had at prices remarkable for cheapness. Have an evening with pictures of the parables of Christ. Explain the artistic meaning. Point out the excellencies and eccentricities of the picture. Get at the hidden meaning of the lesson and draw out its application.

This year we are to spend in this great picture gallery of the New Testament, the parables of Jesus. All the Endeavor, League and Baptist union societies have the same topics. Never before was there such united study of this part of the Holy Scriptures. Photographic illustrations of Bible lands have become common and have done much to give accurate and adequate ideas of the scenes of Scripture history. Here lies a new opportunity to become familiar with the Christian artists who have labored side by side with Christian writers and preachers to spread gospel truth.

Plans For the Winter.

The long evenings will soon be here. The young people of city and country will want to meet together. This will be an eventful season in many lives. Attachments will be formed which will hold much of happiness or misery in store. The time can be worse than wasted or can be made to yield richest treasure. There are in every place young people who can be easily influenced. One good leader can gather a company and direct their thought and efforts any way he chooses. If you have any wish to help yourself and others, call in those of like mind and lay plans at once. Select some line of work and lay out a course for the winter. Take the story of our own land and let the different members look up the chapters from pilgrim fathers to the Philippine campaign or spend awhile in searching the things of early Methodism. Put in a little science on the line of electrical development and art, studying the work of the great painters, sculptors and architects. The popular magazines and photographs will help much. Spend an evening on the Siberian railroad, one on China or Japan. Such plans will hold interest and be of some value.

NO FEDERAL INTERFERENCE

President McKinley Informed Senator Blackburn the Situation in Kentucky Did Not Warrant It.

WASHINGTON, Feb. 3.—The president decided that the Kentucky situation is not in such condition as to warrant federal interference. Almost immediately upon the receipt of Governor Taylor's message the president took up the question, and consulted authorities on points with which he was not familiar. A decision was reached at once, and when Senator-elect Blackburn, with Representatives Rhea, Allen, Gilbert, Smith and Wheeler called to protest against federal interference in Kentucky, the president promptly gave them to understand that he had already reached a conclusion on the subject and that he had found that the situation did not warrant the federal authorities in interfering. This decision was announced to the cabinet immediately upon its convening.

Attorney General Griggs, Secretary Root and the other lawyers of the cabinet sustained the president's conclusion. The law, which must govern in this case, authorizes federal action only when the legislature is not in session and cannot be convened. Governor Taylor's message does not intimate that the legislature of the state can not be promptly convened, nor does he show that the conditions in Frankfort are such as would justify federal intervention.

The president and the members of his cabinet, without exception, recognize the fact that the legislature of the state of Kentucky, by a majority thereof, is the sole judge of which of the two contestants was elected governor of the state at the recent election.

You may run away from hydrophobia, because you can see it coming in the frothing tongue and the snapping jaws of the mad dog. But the diseases which carry off the greater part of mankind there's no running away from. They are stealthy, insidious, and come as a thief in the night.

Six percent of the daily deaths are due to consumption. The name of the disease suggests the horror of emaciation, the labored breathing, the hectic color, the night sweats which mark the struggles of the daily weakening victim.

To those with weak lungs, obstinate, lingering cough, bronchitis, and kindred ailments which, if neglected, lead on to consumption, Dr. Pierce's Golden Medical Discovery brings hope, help and healing. Its cures have been many and marvelous. Thousands who had lost hope, have found a permanent cure in "Golden Medical Discovery."

"Last spring I wrote you in regard to my health which at that time was very poor," writes Mrs. Nettie M. Barnes, of Garfield, Pawnee Co., Kansas. "My trouble was bronchial affection. Symptoms: spitting of blood almost every morning for five years, shortness of breath, raw and sore throat, loss of strength, at times almost loss of voice, irregular periods. In fact I thought I was surely going into consumption. I consulted you and you advised me to give Dr. Pierce's Golden Medical Discovery a trial, which I did, and with happy results. I used two bottles of 'Golden Medical Discovery' and health returned as I used the medicine. I have only raised blood three times since I began using it. My periods are regular, strength returned, and I am almost a new person. I know of a lady that was cured of consumption by this same 'Golden Medical Discovery,' and she always sings its praise."

Some dealers may offer you a "just as good" medicine in place of Dr. Pierce's, because there's more profit in the sale of the substitute. If any dealer thinks more of his profit than of your patronage, he's not entitled to your trade.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Feb. 4.—Comment by Rev. S. H. Doyle.

Topic.—Things that endure.—Math. vii, 21-22. (Christian Endeavor day.)

Christian Endeavor is now 19 years of age. It has stood the test of almost a quarter of a century and is still strong and powerful and possesses the characteristics of things that endure. According to the lessons of the topical reference, Christ's closing words in the sermon on the mount, the things that endure possess several characteristics: 1. They must be divinely inspired, being "the will of the Father." 2. They must be founded upon divine principles, upon the rock Christ Jesus. 3. Their purpose must be divine. They must be done unto Christ.

Nineteen years of Christian Endeavor have proved that it possesses these characteristics of endurance.

1. Christian Endeavor was divinely inspired. It is the will of the Father. The providential factor in Christian Endeavor was long emphasized, and it should not be forgotten today. Its rapid growth, its wonderful adaptability to all denominations and to all countries, its marvelous work, all pointed to the fact that it was a movement inspired of God. This is still our belief. And, if divinely inspired, we may believe that it will endure, because it was inspired to meet a need that is ever present in the church.

2. Christian Endeavor is founded upon Divine principles. The Christian Endeavor constitution, the pledge, the consecration service, the committee work, are directly founded upon the word of God, which is not to pass away. It possesses this essential of endurance, and that it may endure these principles need more than ever today to be emphasized. The pledge, the consecration service, the committee work, all need to be revived. A new generation of young people has arisen who need to know about them, and many who once knew seem to have forgotten. Let us have a revival in Christian Endeavor, a revival of its fundamental principles, which are founded upon God's eternal word, and we will add much to the endurance of the movement.

3. The work of Christian Endeavor is divinely purposed. It is "for Christ and the church." Christ may say to Christian Endeavorers, "Ye did it unto Me," and therefore not only will the movement endure, but the work that it does will find an eternal endurance in the life beyond this world. May this anniversary day become an inspiration to Endeavorers everywhere, and may Christian Endeavor receive a baptism from on high that will give it new confidence in and new zeal for the future.

THE PRAYER MEETING.

If possible, use the United Society's special programme for C. E. day. If not, arrange a special programme, with addresses or papers on these subjects:

1. "The Past of Christian Endeavor."
2. "The Present of Christian Endeavor."
3. "The Future of Christian Endeavor."

Bible Readings.—Ps. ix, 7; lxxii, 17; xc, 1; civ, 31; cxxi, 1-8; Dan. xii, 3; Math. xxiv, 35; Luke vi, 47-49; 1 Cor. xv, 58; Gal. vi, 9; Jas. i, 9-12; 1 Pet. i, 3-5, 25; 1 John iii, 15-17; Rev. ii, 7.

A Church Upside Down.

"At Clapham, in England, there is a bell which bears an inscription, 'God save the Church.' But through some blunder the word 'church' is upside down. The blunder is, unfortunately, suggestive as to the real state of affairs in many churches. But the Lord is a lover of order, and the thing to do is not alone to pray, 'God save the church,' but also to entreat that God will save it from being upside down."

Perhaps the reader has seen some such churches—he may belong to one for that matter. An "upside down" church may be described as follows: It has a membership that belongs to business, pleasure and the like rather than to the Lord. It has a lot of empty seats, a lot of unpaid dues on its record books, a lot of members fighting with each other, a lot of societies for the running of entertainments and for the prevention of duty to the church. It has a Sunday school that belongs to some individual rather than to the congregation, a church council that looks to the pastor for the transaction of its business and an organist and choir that are interested more in performances than in worship. Is your church one of that kind?—New York Observer.

Religion In Japan.

The religious condition of Japan is

something remarkable in an examination of three schools is any indication. Of the 400 students examined, 282 claimed to be agnostics, 60 atheists, 15 Buddhists, 4 Christians, and only one was an adherent of Shintoism. Japan's objection to being called a heathen nation would, according to this, seem to be well founded. In a catalogue of religions it is difficult to say where Japan should be placed, but this examination may serve to show some of the difficulties which Christian missionary laborers in that country will be called upon to meet.—Exchange.

YEAR'S TRADE MUCH DONE.

In Work Accomplished, Dun's Review Said Past Month Probably Surpassed All Others.

NEW YORK, Feb. 3.—R. G. Dun & Co.'s weekly review of trade issued today said in part: This year starts with much of the year's business already done, and all comparisons will prove misleading if that fact is not taken into account. Last year the certainty of great improvement had come before the year opened, and there was a rush to get in orders before works became crowded and prices advanced. This year, the works were already crowded for months ahead in most lines, and prices had already advanced so far that recoil had already commenced in some branches and was thought probable in others. With one exception of wooden manufacture, the chief industries have met less new business in January than last year, though deliveries on previous contracts have been larger than a year ago.

In work turned out, the past month probably surpasses all others, and, rightly considered, the fact that new contracts for works already well supplied are smaller than last year, is not of itself discouraging. The great burst of speculation last year swelled January payments through clearing houses far beyond those of this year at New York, and such payment at other cities also averaged per business day a shade larger than this year. But a much greater decrease must have appeared in transactions connected with formation of new companies.

Wheat rose 1 cent, but soon reacted. Atlantic exports only 1,465,992 bushels, flour included, for the week, against 4,942,436 last year, had more influence than the decrease in western receipts, which have been for the week 43 per cent and, for five weeks 40 per cent less than last year, while the decrease in Atlantic exports for five weeks has been 57 per cent. Pacific exports have been 4,200,390 bushels in five weeks, against 3,610,552 last year. The price of corn is fairly steady, with exports for the week much smaller than last year, but in five weeks 16,119,849 bushels, against 16,579,514 last year. The western receipts decrease much more than the exports.

Wool is rather weaker in some grades, but stronger in others, so that the average quotations is steady notwithstanding some sales at concession. The mills which have taken extraordinary orders for the heavy weight season without afterwards looking for wool, obviously have on hand large stocks, so that the market depends upon the sufficiency of the supplies they hold. Prices of goods are still rising a little, but are yet relatively lower than the material.

Boot and shoe manufacturers have passed all records in deliveries, nearly 20 per cent beyond those of January last year, but new orders have been greatly restricted. Recent sales of hemlock sole and of rough leather show a decline of $\frac{1}{2}$ @ 1 cent, however, while hides at Chicago continue their gradual decline.

The iron and steel industry is so far tied up by contracts reaching through most of the year that the effect of production exceeding consumption is felt only in some branches. A little lower prices have been made for foundry iron in considerable transactions, though Bessemer does not yield, but steel billets are offered by some at \$33 per ton. Differences between producers and some of the largest consumers of steel block the market. In plates and bars concessions are still made to secure business; in sheets the demand is stronger, and in rails, structural forms, tinplates and nails prices are held firmly.

Failures for the week have been 232 in the United States, against 224 last year, and 34 in Canada, against 25 last year.

Doctor Died of Injuries.

WESTON, W. Va., Feb. 3.—Dr. Charles Smith, of this city, a member of the state board of health, while at Lorentz attending a case of smallpox, attempted to board a moving train, fell under the wheels and had both legs cut off above the knees. He was brought here, where he died.

WEATHER FORECAST.

Western Pennsylvania, Ohio and West Virginia—Fair and warmer today; light fresh westerly winds; increasing cloudiness tomorrow.

UNION LABELS

It should be a deep-rooted principle of all union workmen and union sympathizers and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours and union labor employed.

UNION PAPERS.

All Union papers of East Liverpool are down to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns.

PATRONIZE UNION CLERKS.

When you buy goods of the U. S. A. you can show this card to the clerk and get a discount.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE CLOTHES.

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL.

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold. The Label will be placed on the upper front side of the tube that receives the seat post.

UNION BREAD AND CRACKERS.

This is a full size facsimile of the Label of the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions, and in clean and healthy bakeries. Following is the confectioners' and cracker Label.

UNION LABELS

It should be a deep-rooted principle of all union workmen and union sympathizers and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours and union labor employed.

UNION PAPERS.

All Union papers of East Liverpool are down to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns.

PATRONIZE UNION CLERKS.

When you patronize Union Clerks, you show this card.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE CLOTHES.

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

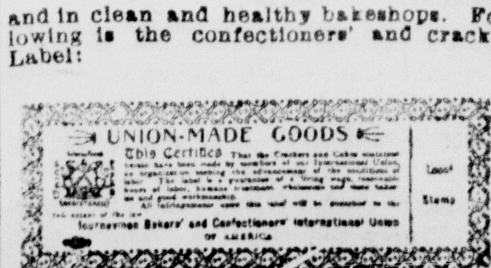

BICYCLE LABEL.

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold. The Label will be placed on the upper front side of the tube that receives the seat post.

UNION BREAD AND CRACKERS.

This is a full size facsimile of the Label of the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions, and in clean and healthy bakeries. Following is the confectioners' and cracker Label:
